1. All materials used to manufacture the concrete parking block shall be in accordance with CMS 509.02.

2. The material requirements for the anchor pin shall be in accordance with CMS 509.

3. All #4 reinforcing bars shall be epoxy coated as per CMS 509.

4. Reinforcing steel shall be placed 2" clear min. from the surface of the concrete.

5. Payment will be made as Item Special, Concrete Parking Block, Each and includes reinforcing steel and anchor pins.

NOTES:

- #4 is the normal setback distance from a pavement edge.
- In a remove and reset operation, the block would go on new or resurfaced pavement, however, it may be necessary on some projects to place new blocks on existing pavement.
