This foundation is intended for use with concrete barrier as detailed in Standard Construction Drawing (SCD) HL-20.13.

2. Conduits in the foundation shall conform to C&MS 625 and T&I. The foundation conduit shall be of the same material as that used to protect the circuit extension beyond the foundation.

3. See SCD HL-20.21 for additional details, reinforcing steel, and anchor bolts. The maximum anchor bolt embedment length shall be 49 inches.

4. See SCD HL-20.21 for grounding details.

NOTES:

See SCD HL-20.21 for grounding details.

Reinforcing According to HL-20.13.
