NOTES:

1. Mount vehicle detector unit so that the detector is mounted on the roadway side of pole at a height recommended by the manufacturer.

2. Support hooks should be appropriately sized for the number and size of conduits to be supported. Support electrical and communication cables with separate hooks.

3. Run all wiring inside the pole and provide strain relief and support for all control cables.

4. See plan sheets for vehicle detector locations.

5. When installing the mounting brackets for vehicle detectors, align and angle the detectors to cover the detection zone as per manufacturer's specifications.
