

**Ohio Department of Transportation
Office of Traffic Engineering
January 15, 2010 TEM Revision**

To Holders of the ODOT Traffic Engineering Manual (TEM):

As of January 15, 2010, Parts 1, 2, 3 and 4 of the TEM have been revised.

The on-line copy of the TEM has been updated. A separate revision package for updating a current TEM is available from the ODOT Design Reference Resource Center (<http://www.dot.state.oh.us/drrc/>), or from the Publications/Documents link provided on the left side of the Office of Traffic Engineering's Home Page (<http://www.dot.state.oh.us/traffic/>). The revision package includes a detailed Revision Log.

The **TEM Revision package is set up to print double-sided sheets**. The pages should be printed and inserted into your manual by page number.

Per ODOT policy, paper copies of the publications are no longer distributed to all holders. Revisions will only be available via the web pages noted above.

Juanita Elliott, P.E., Traffic Standards Engineer or Lisa McConnell, Traffic Standards Technician
(614-644-8143 or Juanita.Elliott@dot.state.oh.us) (614-728-9361 or Lisa.McConnell@dot.state.oh.us)

Intentionally blank.
