

<p>Listing of Projects that included Federal Disbursements made by the Ohio Department of Transportation (ODOT) to and on behalf of Sponsoring Agencies with administrative responsibilities as defined by OMB Circular A-133. It is also necessary to use the 2014 LPA Federal Statewide Projects listing. No MPO Planning Expenditures are included in the reports.</p>
<p>For the period January 1, 2014- December 31, 2014 Includes All CFDA Numbers Under the Umbrella of the U.S. Department of Transportation.</p>
<p><i>Every effort has been made to report accurate and complete information. If a user has any questions or concerns regarding this report, or for further assistance, Please contact Stephanie Wagenschein at (614) 387-0390 or Stephanie.Wagenschein@dot.state.oh.us. Transit questions should be directed to Michael Miller at (614) 466-0588 or Michael.Miller@dot.state.oh.us.</i></p>
<p>20.205 Project Funding - Auditors should inquire of the client regarding all expenditures made, as ODOT can only report expenditures it has paid and/or reimbursed. Auditors should trace funding received and expended to ledgers. ODOT has provided the project information to help audits ensure completeness of the Federal Schedule; however the ODOT report and CMS data should not be the primary source of Federal Expenditure reporting for the Locals.</p> <p>Non-20.205 Project Clarification- Most of ODOT's non-20.205 funding is for Transit Agencies. Most of these projects will include a FAN number, rather than a PID. These projects are not searchable using the CMS portal since there is no PID. The local or transit agency will still need to identify expenditures and report funding for the non-20.205 projects. ODOT has provided the project information (FAN Number) to help auditors ensure completeness of the Federal Schedule. Auditors should inquire of the client regarding the expenditures related to the FAN Number Auditors should trace funding received and expended to ledgers. Some Projects are for on-behalf of expenditures (vehicle purchases)</p>
