YOUR SAFETY IS THE TOP PRIORITY!

There are many dangers on the roadway other than meth lab waste. Here are a few reminders that will help you have a safe and enjoyable clean up:

• Wear light colored clothing along with your safety vest, work gloves, sturdy shoes, pants, and a long sleeved shirt.
• Park your vehicle clear of the roadway.
• Face oncoming traffic, stay in a group, only work when visibility is good.
• Do not pick items on the paved roadway.
• Make sure your roadwork ahead sign is erected.
• Stay away from any hazardous items.
• Be alert for wildlife and poison ivy.

OHIO DEPARTMENT OF TRANSPORTATION

ADOPT-A-HIGHWAY VOLUNTEERS:

BEWARE OF METH LAB WASTE

A Scenic View Depends on You!
People make or “cook” the drug, methamphetamine (meth), using legal, over-the-counter products such as the ones listed in the next column. Once the cooking process is complete the “cook” must dispose of the waste from the cooking process.

If you find any of the items listed or similar items, do not touch, smell or examine them. Meth dumps may contain or be surrounded by potentially hazardous chemicals. If you suspect you have found materials used to make meth contact your Adopt-A-Highway contact listed on your permit and the Ohio State Highway Patrol. If you must leave the area, mark the site with a trash bag tied to a tree or fence, a safe distance from the sites.
