Community Traffic Calming Programs (4 contact hours)

Description:
This course provides instruction on how to implement a community traffic-calming program centered on neighborhood involvement and low-cost solutions or temporary test measures. It examines conventional solutions including engineering, encouragement, and enforcement, as well as innovative approaches like tactical urbanism and psychological traffic calming. The course is divided into four parts:

1. Introduction: What is traffic calming?
2. Toolbox: Traffic calming measures
3. Program Components: Components of a community-based traffic calming program
4. Implementation: How to create a traffic calming program

What you will learn:
Upon completion of this course, participants will have the knowledge and skills needed to implement a community traffic calming program. They will be familiar with the principles of traffic calming, its various measures, and aware of the resources and tools available to guide implementation. All workshops will provide attendees with public domain continuing education units (CEUs).

Who you should invite:
• Local transportation agencies
• Regional transportation agencies/metropolitan planning agencies (MPOs)
• Local board and commission members
• Transit agencies
• School administrators
• Police departments
• Elected officials

• Neighborhood/civic associations
• Bicycle and pedestrian advocacy groups
• Disability advocacy groups
• Service-oriented groups
• Local businesses
• Developers
• Health and safety groups/community health programs
• Underserved communities

How to apply:
To apply for an Active Transportation Academy training at NO COST to your agency or organization, please visit: bit.ly/Active-Transportation-Academy-Application to submit an online application. If awarded, you will be contacted to finalize workshop details. All applications are accepted on a rolling basis and awards are subject to instructor scheduling and availability of funds.

Who can apply:
Local government agencies (i.e. regional metropolitan transportation agencies, health departments, parks and recreation departments, etc.). Non-profit organizations may apply if they partner with a local government agency. A minimum of fifteen participants is required to host a session.
