Integrating GeoTech Tools into Project Planning & Delivery

**Description** – This 1-day instructor-led course is designed to promote the integration of GeoTechTools into your agency’s practice, in both program development and project delivery. This course will teach you how to use GeoTechTools to make better informed and innovative decisions with geotechnologies, factor project constraints into geotechnology selection, and mitigate project and geotechnical risks with geotechnology selection.

**Who Should Attend?** – The target audience includes agency program managers, geotechnical engineers, pavement engineers, bridge engineers, project planners, and project managers.

**Instructors** – Vernon Schaefer, Ph.D., P.E., and Silas Nichols, P.E., with FHWA.

**Registration Information** – LTAP is managing the registration process for ALL participants. This workshop is being offered at no charge, thanks to grant funding secured by LTAP in partnership with FHWA / NHI. Registrations are processed in the order they are submitted online, while seats are still available. No meals are provided; lunch is on your own. Any registrant requiring a reasonable accommodation during training (i.e., mobility or access) should contact Ohio LTAP prior to the course date so the appropriate arrangements can be made. **Note:** Registrants who will be unable to attend the training after registering are required to cancel a minimum of 48 hours prior to the course start. Failure to cancel prior to the 48 hour cut-off will result in loss of registration privileges for grant-funded NHI or other grant-funded training offered by Ohio LTAP for a period of two years.

Please note the early start time (8:00am) for this program – students should plan to arrive by 7:45am.

Please click here to access the online registration system. Select the course name from the Schedule page, and then scroll down to click on the session date/location highlighted in green font to proceed.
