Executive Summary

This plan is the Public Transit-Human Services Transportation Plan for Tuscarawas County. The plan was initially developed in 2008, updated in 2015 and 2017. This plan fulfills the requirements of the Federal Transit Administration (FTA) under the Fixing America's Surface Transportation (FAST) Act, signed into law as a reauthorization of surface transportation programs through Fiscal Year 2020. According to requirements of the FAST Act, locally developed coordinated public transit-human services transportation plans must be updated to reflect the changes established by the FAST Act legislation. The FAST Act applies new programs and rules for all Fiscal Year 2016 funds and authorizes transit programs for five (5) years.

Transportation is a critical component of the communities in Tuscarawas County. Transportation provides access to jobs, education, health care, human services and allows all community members, including older adults and people with disabilities, to live independently and engage in community life. It is the purpose of this plan for local stakeholders to work collaboratively to do the following activities:

1. Identify all community resources

   - Community Mental Healthcare Inc. 2 Vehicles
   - Horizons Rural Public Transit 20 Vehicles
   - Society for Equal Access (SEA) 28 Vehicles
   - Tuscarawas County JFS 2 Vehicles
   - Tuscarawas County Senior Center 23 Vehicles

2. Identify and Prioritize community transportation needs

   - Affordable transportation for out of the county trips
   - Transportation options for Latino population in Tuscarawas County
   - Tuscarawas County residents who do not qualify for Medicaid services but are low income & unable to pay for transportation services
   - Transportation options for individuals with developmental disabilities
   - Times with no transportation, congestions periods or long travel times
   - Identified groups struggling with transportation options due to medical, economic or social constraints

3. Establish a clear plan for achieving shared goals
The overall plan is to coordinate services with providers and work to increase the transportation providers in Tuscarawas County. Coordinating on the local and regional level will help eliminate the duplication of services as well as streamline providers going to the same locations. The transportation providers will work with the Mobility Manager and other stakeholders to make sure the goals identified in this plan will be top priority to the TuscoBus Advisory Board. The timeline on the goals are all different but have been prioritized by order of importance.

Fundamental to the Coordinated Transportation Plan process is the active and meaningful involvement of stakeholders. For projects selected for funding under the Section 5310 program, participation in planning activities must include participation and/or representation of the following, at minimum:

- Seniors;
- Individuals with disabilities;
- People with low incomes;
- Public, private and non-profit transportation providers;
- Human services providers, and;
- The general public.
- RTPO OMEGA (Ohio Mid-Eastern Governments Association)

In order to ensure participation from the above groups the following stakeholder involvement activities were performed

Planning Committee / Advisory Board Meetings meet quarterly

Stakeholder meeting was held on May 17, 2017

Focus group meetings were held at 4 Satellite Sites of the Tuscarawas County Senior Center

Focus group meetings were held at several day workshops for individuals with disabilities

Public Meeting was held on September 28, 2017 4:00 pm to 6:00 pm

Public Meeting was held on September 29, 2017 10:00 am to 12:00 pm

This plan was developed and adopted by a planning committee TuscoBus Advisory Board which serves as the transportation advisory board and planning committee.
1. Geographic Area

Tuscarawas County is 568 square miles with a population of 92,500 people. Due to the square mileage of the county and its rural setting many residents rely on health/human service agencies as their only means of transportation. The county is rural with New Philadelphia being the county seat being made up of 2 large cities and 20 smaller cities/villages. The residents of Tuscarawas County have to travel for employment, medical or leisure activities which also include the large employers in the New Philadelphia/Dover area.

9 school districts, a career center and a campus of Kent State University are what the counties educational options are. Tuscarawas County has a large hospital in the Dover area and a smaller one in the Dennison area. Medical appointments general will happen in the Dover area and the county has 2 dialysis centers located in close vicinity to the hospital in Dover.

The major trip generator map shows that the majority of trips are to the New Phila/Dover area due to the fact that large employers, hospital, doctors, dialysis centers and shopping are located there. The next area for a large amount of trips is the Dennison area where a smaller hospital is located.

In January 2017 ODOT Office of Transit designated Horizons of Tuscarawas County Counties Inc. a 5311 Rural Public Transit Program. This is the first time that Tuscarawas County has had an opportunity to receive this grant. Along with Horizons, there are 2 nonprofit agencies that provide transportation to residents in the county, Society for Equal Access (SEA) and Tuscarawas County Senior Center. Tuscarawas County has several health and human service agencies that provide close door service for their agencies consumers.

In July 2013, Ohio Mid-Eastern Governments Association become one of the five non-MPO (Metropolitan Planning Organization) regional councils in Ohio taking part in a two-year pilot program to establish Regional Transportation Planning Organizations (RTPO) in Ohio. On January 27, 2016 Governor Kasich formally designated OMEGA as an RTPO along with our four other partner organization, pursuant to Unites States Code, Title 23, Section 135(m). This designation covers the Ohio counties of Carroll, Columbiana, Coshocton, Guernsey, Harrison, Holmes, Muskingum, and Tuscarawas.
Map 1: Basic map of the geographic area covered by the plan
II. Population Demographics

The demographics of Tuscarawas County in the next 10+ years are going to require more resources than we have available at this time. The older adults and older adult with disabilities will be increasing significantly at over 60% of the county’s residents. The demand for resources dedicated to this population will be a hardship on the current transportation providers. Tuscarawas County currently has 14% of the population living below the poverty level. The statewide problem that figures in with our demographics is the number of people fighting an addiction. This group will require more resources for transportation to court, therapy or work. The Latino population is also a under severed population that we need to work with. The data shows that Tuscarawas County has a population that is 95% white and 5% other races. 2% of that population is Latino but that number seems low due to the number of Latino’s living in our County. The transportation providers need to be proactive to be able to meet the needs of an increasing population in the near future.

Chart 1: Total Population Current and Projected for Five Years

![Graph showing total population current and projected for five years]
Chart 2: Total Population by Age Group

Total Population by Age Group

- Under 5 years: 5,448, 6%

- 1884, 2%
- 81979, 94%

- Green: Speaks Only English
- Orange: Speaks English Very Well
- Yellow: Speaks English Less than Very Well
III. Assessment of Available Services

Conducting an evaluation of service provider capabilities and analyzing the existing gaps and duplications of services for transportation resources in each community, provides transportation planners with the information needed to implement changes that will improve the network of transportation resources and services in Tuscarawas County and across county lines.

The lead agency identified stakeholders to participate in the assessment of available services. These stakeholders included those who were represented in the current or past planning committees, as well as others who the planning committee identified as being appropriate stakeholders.

Interviews were conducted with each of the identified stakeholders.

The purpose of the interview was to offer the stakeholders an opportunity to discuss the specific transportation services, gaps, needs, and priorities for their respective service areas or communities.

When applicable, information reported in the previous coordinated plan was used to supplement information gathered during this planning effort.

Inventory of Transportation Providers

The following transportation providers have participated in the information sharing of their transportation service organization. The following are the main transportation service providers for Tuscarawas County.

- Community Mental Healthcare Inc.
- Horizons Rural Public Transit
- Society for Equal Access (SEA)
- Tuscarawas County JFS
- Tuscarawas County Senior Center
Existing Transportation Services
The following information is based on tabulations from the survey and interview results. A total of 5 organizations provided information about their services.

List of Transportation Service Providers

Agency Name: Tuscarawas County Senior Center
Transportation Service Type: Demand Response for TC residents over 60
Other Services Provided: 5 satellite centers, in home services, minor home repair, volunteer options, nutritious meals, education programs, telephone reassurance, income tax preparation through AARP, Medicare consultation/prescription drug assistance, fitness center
Contact Information: Pam Ferrell, Executive Director
Hours: 8am to 6:30 pm M-Th & 8 am to 4:30 pm Friday; Transportation 8:15 am to 3:45 pm M-F
T& Th 1:30 pm to 8pm & Sat 8am to 4pm
Service Area: Tuscarawas County
Eligibility Requirements: Senior Center Tuscarawas County resident 50 & older; Programs Tuscarawas County resident 60 & older
Web-site: www.tuscsc.org

Agency Name: Society for Equal Access (SEA)
Transportation Service Type: Demand Response
Other Services Provided: Independent Living Center Inc
Contact Information: Kevin Hannahs, Executive Director
Hours: 5am to 5 pm M-F Sat & Sun by Appointment
Service Area: Tuscarawas County
Eligibility Requirements: Resident of Tuscarawas County
Web-site: www.seailc.org

Agency Name: Horizons of Tuscarawas & Carroll Counties Inc
Transportation Service Type: Demand Response
Other Services Provided: Developmentally Disabled Group Homes & workshop
Contact Information: Donna Merrill, Executive Director
Hours: 6 am to 11 pm M-Sat; 7am to 2pm Sun
Service Area: Tuscarawas County
Eligibility Requirements: 16 years or older
Web-site: www.horizonsofcarrollandtusc.org

Agency Name: Tuscarawas County Job & Family Services
Transportation Service Type: Demand Response
Other Services Provided: Public Assistance and Children Services
Contact Information: David Haverfield, Executive Director
Hours: M-F 8 am to 4 pm Office; Transportation 7am to 5pm M-F
Service Area: Tuscarawas County
Eligibility Requirements: Transportation Medicaid eligible
Web-site: www.tcfjs.org
Agency Name: Community Mental Healthcare Inc
Transportation Service Type: Client based mental health group therapy only
Other Services Provided: Mental Health, substance abuse and crisis services
Contact Information: J.J. Boroski, Executive Director
Hours: M-T 8 am to 8 pm; W-TH 8am to 5pm; F 8am-12pm Office;
Transportation 7:30 am-1:30 pm M-Th
Service Area: Tuscarawas County
Eligibility Requirements: Clients only
Web-site: www.cmhdover.org

The table below provides a summary of the characteristics of the participating transportation providers and organizations that purchase transportation on behalf of consumers.

* Answering "Yes" indicates that your agency is closed door. Your agency is considered closed door if you ONLY provide transportation to your facility as a courtesy or if you ONLY serve a particular clientele that are enrolled in your agency programs (i.e. members of a sheltered workshop, or residents in a
nursing home). Answering “No” indicates that your agency is open door. This means the service is open to the public or a segment of the general public defined by age, disability, or low income. For example, if an agency provides general transportation for anyone in the community who is over the age of 60, they are considered “open door”. For example, an individual who is 60 or over can request transportation to a doctor’s appointment or the grocery store regardless of their affiliation with your agency.

The participating organizations provide a wide range of transportation including Demand response, on-demand, and human service agency demand response. 5 of the participating organizations provide services on weekdays. 3 operate transportation on Saturdays and 1 on Sundays. Evening services after 5 pm are operated by 2 organizations. The following table depicts the transportation service characteristics by agency.

The following table provides basic information about transportation options other than the traditional public and human services transportation. Transportation options might include bike share, ride share, intercity, or taxi services, and more.

Tuscarawas County has limited options for active transportation. In 2017 an active transportation conference was provided by Ohio Department of Health and Ohio Department of Transportation. 9 teams from The State of Ohio were selected to attend and a diverse group from Tuscarawas County was included. This conference required the team to complete an active transportation plan for the county they represented. This team has completed and submitted the plan. This plan was to include education, infrastructure, planning, policy and data for active transportation in our county. This group will continue to make strides to improve active transportation options in Tuscarawas County.

In 2017 Indian Valley Schools began the process to approve a safe route to school plan and in 2018 will apply for safe routes to school funding through ODOT. This is the first school in Tuscarawas County to have an approved plan. The New Philadelphia Schools started several walking groups at the West Elementary Building in fall of 2017. The mobility manager and active transportation team members are volunteering with this project.

Assessment of Community Support for Transit

Tuscarawas County transportation providers receive support from our County Commissioners, hospitals, dialysis centers and our health/human service agencies. With the limited transportation available in our county it is important to have support from stakeholders to work together as funding becomes harder to attain.

Safety

The transportation providers strive to provide safe, affordable and on time transportation to the residents of Tuscarawas County. Each agency has policies and procedures for their drivers. The agencies coordinate to train all drivers with DRIVE training for safe transporting of ambulatory or clients who require accessible devices. The drivers are trained to handle all types of clients with or without disabilities. They also are taught securement of wheelchairs, walkers or any medically devices that would need to be secured. Defensive Drive training teaches drivers about techniques to avoid accidents. These classes are taught when a new driver starts and every 3 years after as long as employment continues.
Vehicles

Survey/Interview participants listed combined total of 77 vehicles. Approximately 74% of the vehicles are wheelchair accessible. A vehicle utilization table is provided at the end of this chapter (Table 7).

All of the transportation providers provide at least 50% wheelchair accessible vehicles, while some organizations have an entire fleet of wheelchair accessible vehicles.

Tuscarawas County Job and Family Services is the only provider that does not meet the 50% wheelchair accessible van fleet. Since they have a contact with 2 local transportation providers that have accessible fleets this has not been a problem. Tuscarawas County providers have a large number of clients using wheel chairs or needing ramps to utilize transportation. Transportation is also experiencing a large number of bariatric clients requiring a 1000 lb. life and larger vehicles to complete their trips. The only agency with a 1000 lb. lift is Horizons Rural Public transit.

As vehicles age, they require additional maintenance, may break down more often, and become costlier to operate. Vehicle replacement, based on age and condition, is vital to the overall cost effectiveness of the transportation services provided.

Summary of Existing Resources

The above charts show 77 vehicles available to transport clients from 5 providers. It is still at times not enough. There are hours doing the day depending on the following factors; client's appointments are running earlier, later than scheduled so the agencies providing services could be overloaded. The times are normally between 8 am to 9 am, around 12pm and again around 2pm to 4 pm. It seems that all clients require a trip in these time frames. Grouping trips by geographic locations has helped a little but with the number of vans out of county doing trips this limits the amount of vans in the county and makes the overload sometimes impossible to handle.

Insert a summary of existing resources that are available.

IV. Assessment of Transportation Needs and Gaps

In an effort to better understand the Tuscarawas County needs, the planning committee examined research and data, as well as solicited input from the community in an effort to gather information about needs and gaps in transportation services.

The demographic and socio-economic conditions of the study area are discussed in the Demographics Chapter of this plan. The following overview is an evaluation of the gaps in service based upon geographic data as well as from the perspective of the targeted populations, transportation providers, and the general public.

Tuscarawas County Senior Center along with a variety of stakeholders in the area in an attempt to solicit input and request participation from any organization that could potentially be impacted by the coordinated transportation planning process. More information on how the lead agency engaged stakeholder and the general public is available upon request.

The following methods were used to assess transportation needs and gaps

- Assessment of data and demographics (required)
- Planning Committee /Advisory Board Meetings
- Coordination with other agencies that are performing surveys or data for planning
- Client Surveys
- Stakeholder Surveys
- Focus Groups
- Public Meetings

Local Demographic and Socio-Economic Data

Data for each target population group were aggregated by Census Block Group for transportation analysis. The demographic and socio-economic data is valuable because a comparison of where the highest and lowest densities individuals who are most likely to need transportation live. This information can then be compared to the locations of 1 major trip generators, and 2 available transportation services.

The following exhibit Map 3 illustrates the areas where the number of older adults (age 65 and older) is at or above the Tuscarawas County average.
The exhibit Map 4 below indicates the areas where the number of zero vehicle households is above the Tuscarawas County average. The absence of a vehicle in the household is often an indication of the need for transportation services.

Exhibit Map 4: Map of Density of Zero Vehicle Households
The next map 5 exhibit illustrates the location of the top destinations for the existing transportation providers as well as major trip generators for anyone in the area, including those who drive a personal vehicle.

Exhibit Map 5: Map of Major Trip Generators
Analysis of Demographic Data
Tuscarawas County data shows that zero vehicle households, individual’s age 65 & older population are in the areas of the county that require longer than normal transit times. The issues that transportation providers face currently are these individuals live a long distance from their appointments which mean long transit times. A long transit time creates the problem that fewer clients receive services due to the longer than normal transit time. The normal transit time is 15-30 minutes before a client’s appointment to allow for pick up and travel time. In smaller cities and villages outside of New Philadelphia and Dover area transit time could be as much as 1 hour or more. That is getting to the client and then to the appointment. Combining with the long transit time is the client could be disabled and required to use a wheelchair for transport. If this scenario occurs, then there would be additional time added for securing of the wheelchair.

General Public and Stakeholder Meetings/Focus Groups
Tuscarawas County Senior Center hosted and facilitated 10 local meetings and focus groups to discuss the unmet transportation needs and gaps in mobility and transportation. 94 of people participated in the meetings. Of those, 56 self-identified as older adults and 7 self-identified as being a person with a disability. More information about what meetings were held and attendance at those meetings is available upon request.

During the meeting, Tuscarawas County Senior Center / Shannon Hursey, Mobility Manager presented highlights of historical coordinated transportation in Tuscarawas County , and discussed the activities since the last Coordinated Public Transit Human Services Transportation Plan that have helped to address some of the unmet transportation needs and gaps in services for the area.

Following the initial presentation, the stakeholders were asked to review the gaps in transportation services and needs from the previous plan/or update and identify any gaps that were no longer valid and any new needs/gaps, which the facilitator deleted/added to/from a list. The focus of the discussion was transportation for older adults, individuals with disabilities, and people with low incomes. However, several topics discussed also impact mobility options for the general public.

After the changes to the needs/gaps list were completed and new needs/gaps were added, each participant was asked to rank the needs/gaps using colored dots representing a high, medium, or low priority or that the remaining gap/need should be deleted.

Participants discussed more than 15 mobility issues to achieve, preserve, avoid, or eliminate through coordination during the meeting[s]. Coordinated transportation stakeholders will consider these unmet needs when developing transportation goals and strategies, and grant applications. The exhibit at the end of this section provides a summary of the unmet mobility needs discussed during the meeting as well as the needs identified by the survey results.

Surveys
The following survey summary includes the information gained from the following surveys that were performed. 153 surveys from the general public: 15% of individuals with disabilities completed the survey; 67% of older adults completed the survey.
Challenges to Coordinated Transportation

In addition to identifying needs, the planning committee gathered information from stakeholders and used their own professional experience to identify challenges to providing coordinated transportation services. These challenges include the following:

- Contract services
- Payment of the trip
- Agency policies concerning van usage
- Agency hours
Summary of Unmet Mobility Needs

The following table describes the identified unmet transportation needs that were identified and the method used to identify and prioritize each need. Needs are listed in order of their rank in highest to lowest priority.

V. Goals and Strategies

Developing Strategies to Address Gaps and Needs
Strategies for improving transportation for Tuscarawas County should address the service gaps and user needs identified in this plan, if they are to be effective. As described, the gaps and unmet needs were based on information obtained from geographic analysis, the attendees participating in the meetings, and responses to the public survey.

Based on information gathered throughout the planning process, the Tuscarawas County Senior Center developed the following strategies to address the gaps and unmet transportation needs. Priority levels are assigned by considering the primary funding sources that could be available to support plan implementation compared to the importance of meeting this unmet need expressed by the public and stakeholders. Not all strategies are activities specifically eligible for funding under the existing programs, nor is it guaranteed that sufficient funding will be available to achieve every strategy identified. In addition, the local stakeholders will need to provide support and commit to pursuing the strategies if they are to be accomplished. Nonetheless, these strategies have been tailored to 6 of the identified primary gaps and needs.

Below is an outline describing the prioritized strategies to address each of the identified unmet transportation needs or gaps in service.
Goal 1#
Affordable transportation for Out of County Trips

Need(s) Being Addressed: Local transportation providers to be able to provide self-pay trips out of the county at an affordable rate to residents

Strategy 1.1:
Work to Coordinate Services with transportation providers taking trips outside of the county

Timeline for Implementation: 1 to 2 years

Action Steps:

- Determine an affordable rate to frequent out of county locations
- Work with transportation providers to coordinate clients of contract trips & self-pay trips
- Determine how many times a week or month service can be provided
- MOU’S between transportation providers
- Apply for Specialized Transportation Grant 5310 for Vehicles & Mobility Management Grant
- Work with counties within our Region to provide regional transportation services and coordinate Mobility Management services within Muskingum, Guernsey, Harrison and Carroll Counties
- Hiring additional Mobility Managers to help coordinate providers in the region

Parties Responsible for Leading Implementation: Mobility Manager / Ex Directors of Transportation Providers, RTPO/ OMEGA, Transportation Providers within our Region

Parties Responsible for Supporting Implementation: Transportation Coordinators, OMEGA, Regional transportation providers

Resources Needed: Funding, Staff Time, Policy & Procedure Alignment, Vehicles, local match

Potential Cost Range: Unknown

Potential Funding Sources: Grants, Local Foundations

Performance Measures/Targets:

- Track the number of out of the county trips, cost of trips and how it was paid
- Track the number of out of the county trips taken at the new rate
- Track the number of days within a month coordinated trips were taken
- Work with mobility management project to coordinate transportation provider’s data on how many trips go out of county, what days they go and payment source
- Work with the Regional Transportation Providers on how to coordinate services
Goal #2:
Transportation options for the Latino Population in Tuscarawas County

Need(s) Being Addressed: Latino population is able to use local transportation providers

Strategy 2.1:
Work with Latino Cultural Connection nonprofit to gain insight for providing the Latino population with transportation options in Tuscarawas County

Timeline for Implementation: 6 months to 1 year

Action Steps:
- Install a Phone Line/number dedicated for Latino population
- Hire a Bi-lingual dispatcher / find volunteer pool that is Bi-lingual
- Put on training for all transportation providers staff
- Print brochures in Spanish
- App for smart phone to request transportation in Spanish but translates to English
- Apply for 5310 Grant for Mobility Management Grant

Parties Responsible for Leading Implementation: Mobility Manager / Ex Directors of Transportation Providers,

Parties Responsible for Supporting Implementation: Transportation Coordinators

Resources Needed: Funding, Volunteers, Staff Time, Publication or Printing, Technology, Kent State Tusc, Buckeye Career Center, Mobility Manager

Potential Cost Range: $7,000

Potential Funding Sources: Grants, Local Foundations

Performance Measures/Targets:
- Track the number of new clients that are Latino
- Track number of trip requests from Latino population
- Track number of call received on Spanish phone line
- Work with mobility management project to coordinate what transportation providers implemented so the general public and local Latino population can be notified
Goal #3: 
Need(s) Being Addressed: Tuscarawas County Residents who do not qualifying for Medicaid services but are low income unable to pay for transportation services

Strategy 3.1: 
Coordination of agencies to find transportation options for low income residents not qualifying for Medicaid

Timeline for Implementation: 1 year to 2 years

Action Steps:
- Identify all Health/Human Service Agencies and requirements for transportation
- Develop a flow chart to determine where clients can receive services depending on age, income and other factors
- Work with transportation providers to identify clients in need of services with no to low costs
- Apply for Specialized Transportation Grant 5310 for Vehicles & Mobility Management Grant
- Hiring additional Mobility Managers to help coordinate providers in the region

Parties Responsible for Leading Implementation: Mobility Manager / Ex Directors of Transportation Providers,
Parties Responsible for Supporting Implementation: Transportation Coordinators

Resources Needed: Funding, Staff Time, Publication or Printing, Vans,

Potential Cost Range: $ Unknown

Potential Funding Sources: Grants, Local Foundations

Performance Measures/Targets:
- Work with transportation providers to determine number of clients needing help
- Track number of trips the mobility management project works with needing help
- Track number of trips that were actually taken
Goal #4: Transportation options for Individuals with Developmental Disabilities for employment and personal trips in Tuscarawas County

Need(s) Being Addressed: Individuals with Developmental Disabilities population is able to use local transportation providers

Strategy 4.1: Work with Tuscarawas County Board of DD to communicate how to be able to access transportation options

Timeline for Implementation: 6 months to 1 year

Action Steps:

- Meet with SSA team @ Tuscarawas County Board of DD to make sure all transportation options are known
- Put on training for all transportation providers staff
- Easy to understand brochures
- Apply for Specialized Transportation Grant 5310 for Vehicles & Mobility Management Grant

Parties Responsible for Leading Implementation: Mobility Manager / Ex Directors of Transportation Providers,

Parties Responsible for Supporting Implementation: Transportation Coordinators

Resources Needed: Funding, Staff Time, Publication or Printing, Technology, Tuscarawas County Board of DD, Vehicles

Potential Cost Range: $500

Potential Funding Sources: Grants, Local Foundations

Performance Measures/Targets:

- Track the number of clients taking trip for employment
- Track number of trip requests from Individuals with Disabilities for personal trips
- Compare the number of Individuals with Disabilities in the past to current
- Work with mobility management project to correlate the data and look for coordination efforts
Goal #5:
Need(s) Being Addressed: Times with no transportation options, transportation congestion or long travel times for Tuscarawas County Residents

Strategy 5.1:  
*Transportation Providers working together to help identify the under laying issues to solve the problems*

Timeline for Implementation: 6 months to 1 year

Action Steps:

- Identify step to help elevate the congestion times 8-9 am 12pm & 2-4pm; No transportation options from 12am to 6 am
- Look for partners to help at times of congestion & also when no transportation is available
- Grouping trips with transportation providers in long travel time areas
- Apply for Specialized Transportation Grant 5310 for Vehicles & Mobility Management Grant
- Hiring additional Mobility Managers to help coordinate providers in the region

Parties Responsible for Leading Implementation: Mobility Manager / Ex Directors of Transportation Providers,

Parties Responsible for Supporting Implementation: Transportation Coordinators

Resources Needed: Funding, Staff Time, MOU'S between agencies, vehicles

Potential Cost Range: $Unknown at this time

Potential Funding Sources: Grants, Local Foundations

Performance Measures/Targets:

- Track number of clients needing transportation options between 12 am-6am
- Track number of clients needing transportation that live over 15 minutes from Medical facilities
- Track location and number of clients affected by the congestion times
- Mobility Management project will help with trends, data collections and preparing data to see how we can change scheduling moving forward
Goal #6:
Need(s) Being Addressed: Tuscarawas County Residents who are part of identified groups struggling to receive transportation options due to barriers of economic, medical or social constraints

Strategy 6.1:
Identify how many groups and what barriers each group is dealing with

Timeline for Implementation: 1 year to 2 years

Action Steps:
- Identify all agencies working with these individuals to be able to receive transportation options
- Coordinate meetings between identified agencies and transportation providers
- Work to attain funding from grants, local foundations or agencies to help these individuals receive transportation
- Apply for Specialized Transportation Grant 5310 for Mobility Management Grant
- Apply for Specialized Transportation Grant 5310 for Vehicles for larger vans/buses with lifts to support bariatric clients
- Hiring additional Mobility Managers to help coordinate providers in the region

Parties Responsible for Leading Implementation: Mobility Manager / Ex Directors of Transportation Providers,

Parties Responsible for Supporting Implementation: Transportation Coordinators

Resources Needed: Funding, Staff Time, Publication or Printing, Vans, stakeholders,

Potential Cost Range: $Unknown at this time

Potential Funding Sources: Grants, Local Foundations, donations

Performance Measures/Targets:
- Track the number of clients and what barriers we are dealing with
- Track number of trip requests for identified groups
- Work with mobility management project to compile the data
- Work with public, private or nonprofit to attain group needs
VI. Plan Adoption

The Tuscarawas Coordinated Public Transit-Human Services Plan planning process

- Coordinated Plan will be distributed to the planning committee/advisory board for review at the last meeting of the year.
- Planning Committee/advisory board will discuss any changes and determine if the plan needs updated.
- Public Meeting, Focus Groups and stakeholder meetings will be scheduled by Mobility Manager.
- Mobility Manager will hand out surveys at all meetings with stakeholders, focus groups, clients and made available on website.
- Surveys sent to stakeholders who didn’t attend meetings.
- Surveys handed out to clients riding transportation vehicles.
- All information collected and presented at Planning Committee/advisory board meeting.
- All gaps/needs are ranked for the plan.
- Changes will follow the amendment process.
- Once all changes are made the coordinated plan will be sent out to TuscoBus Advisory Board to review (7 days prior to the meeting) and posted on the website for public comments.
- TuscoBus Advisory Board will hold a meeting to adopt the coordinated plan by majority vote and signing the resolution for adopting the Tuscarawas Coordinated Public Transit-Human Services Plan.
Appendix A: List of Planning Committee Participants

The planning committee consists of representation from local agencies as well as participation of individuals with disabilities, older adults, and members of the general public. More information about the planning committee is available upon request by contacting

Annual Review

The annual review process was started at the July 18, 2018 meeting of TuscoBus Advisory Board. The Mobility Manager emailed the plan to all board members prior to the meeting. The board members were instructed to look over the plan for any changes that needed made. The Mobility Manager talked about the following meetings being set up, focus groups, stakeholders and a public meeting. The TuscoBus Advisory Board will be sent the updated Coordinated Plan for review prior to the October 17, 2018 meeting. The October 17, 2018 TuscoBus Advisory Board will make a motion to adopt the changes to the plan. The following changes were done to the Tuscarawas Coordinated Public Transit-Human Services Plan

- All transportation provider’s information, inventories were updated
- All maps were updated by Ohio Mid-Eastern Government Association (OMEGA) to match all coordinated plans from other counties in our region
- Board Members
  - Mary Beth Shoemaker, resigned
  - New board member Glen Groh
- Goals
  - Updated with current information
- Meetings
  - TuscoBus Advisory Board Meeting
    - July 18, 2008
    - October 17, 2018
  - Stakeholders Meeting
    - September 25, 2018
  - Public Meetings
    - October 4 & 5, 2018

Amendment
Appendix C: Definitions

There are several terms used throughout the plan that may be unique to transportation providers or human service agencies. The terms are defined here for reference.

**Coordination** — Collaborative efforts toward understanding and meeting the mobility needs in the most appropriate, cost effective, and responsive manner.

**FAST Act** — Congress established the funding for Federal Transit Administration programs through authorizing legislation that amends Chapter 53 of Title 49 of the U.S. Code. On December 4, 2015, President Obama signed the Fixing America’s Surface Transportation (FAST) Act, reauthorizing surface transportation programs through Fiscal Year 2020.

**Gaps in Service** — A break in the continuity of available transportation resources such as a break between hours of operation or a break between two or more geographic areas.

**Lead Agency** — The organization responsible for facilitating outreach; composing a plan that meets the requirements of current Federal and State legislation; maintaining documentation from the planning process and making it available upon request; and leading stakeholders through annual reviews, amendments, and updates of the plan. The Lead Agency also is responsible for submitting the adopted Coordinated Plan and all amendments or updates to participating stakeholders and ODOT.

**Mobility Management Program** — The Tuscarawas County Senior Center is the lead agency for a grant funded program. The program has a full time mobility manager that works to make sure residents of Tuscarawas County have all modes of transportation options available to them.

**Planning Committee** — (indicate if the planning committee has another formal name) The Planning Committee is composed of key community stakeholders. The Planning Committee members agree to actively participate in the planning process and act as the plan advisory and adopting entity.

**Ridership** — The total number of passengers who boarded transportation vehicles are counted each time they board a vehicle.

**Section 5310 Program** — Enhanced Mobility of Seniors & Individuals with Disabilities (49 U.S.C. 5310) provides Federal formula funding for the purpose of assisting private nonprofit groups in meeting the transportation needs of older adults and people with disabilities when the transportation service provided is unavailable, insufficient, or inappropriate to meeting these needs. The program aims to improve mobility for seniors and individuals with disabilities by removing barriers to transportation service and expanding transportation mobility options.

**Section 5311 Program** — The Formula Grants for Rural Areas program provides capital, planning, and operating assistance to states to support public transportation in rural areas with populations of less than 50,000 where many residents often rely on public transit to reach their destinations. The program also provides funding for state and national training and technical assistance through the Rural Transportation Assistance Program. Subrecipients may include state or local government authorities, nonprofit organizations, and operators of public transportation or intercity bus service.

**Section 5307 Program** — The Urbanized Area Formula Grants program (49 U.S.C. 5307) makes federal resources available to urbanized areas and to governors for transit capital and operating assistance in urbanized areas and
for transportation-related planning. An urbanized area is an incorporated area with a population of 50,000 or more.

**Transportation** – Transportation is broadly defined to include traditional transit, human service agency services, on-demand (taxi-like) services, bicycle and pedestrian programs and amenities.

*TuscoBus* – Tuscarawas County’s Transportation Advisory Board and Planning Committee

**Unmet Transportation Needs** – Transportation that is wanted or desired but is not currently available.
July 11, 2018

Sean Sammon
Transit Planner
Ohio Mid-Eastern Governments Association
326 Highland Avenue, Suite B
Cambridge, Ohio 43725

Dear Sean:

The Village of Sugarcreek does not provide regional transportation services in the Village. We do have private individuals that purchase vans to haul the local Amish around to different places. I talked to a couple of haulers and they really didn't want to give me information about who they haul and where.

I hope this information is helpful to you.

Sincerely,

Clayton Weller
Clayton Weller, Mayor
