

Records Management Interview Questions

Monroe County Public Transportation

Denise Potts – Director of Transportation

Sharon Leasure – Assistant Director of Transportation

Terri Paige – RLS & Associates, Inc.

Ohio Department of Transportation

March 4, 2015

#	Question		Regulation	
1	<p>APPROPRIATENESS OF RECORDS MAINTENANCE: Does the auditor observe that a set of records has been established with the following characteristics:1) Secure location and access controlled to those few individuals with a need to know;2) Information released only as appropriate;3) Federally required tests and testing has priority and is separate from non-DOT testing;4) Records are maintained for the proper length of time.</p>			
2	<p>Does the employer maintain records of its anti-drug and alcohol misuse program in a secure location with controlled access?</p>	<p>Yes, in a locked cabinet in her office, however key is in her purse which was in the unlocked office out of her sight at the time of the interview.</p>	<p>Section 655.71(a) states: "An employer shall maintain records of its anti-drug and alcohol misuse program as provided in this section. The records shall be maintained in a secure location with controlled access."</p>	<p>Addressed in #65 in Program Manager Interview report.</p>
3	<p>Does the employer only release drug and alcohol testing information related to covered employees as permitted by law or in accordance with the circumstances described in Section 655.73?</p>	<p>Understands that they would only release the records to official representative of DOT, FTA or law officials with certified warrant.</p>	<p>Section 655.73(a) states: "Except as required by law, or expressly authorized or required in this section, no employer may release information pertaining to a covered employee that is contained in records required to be maintained by Section 655.71 of this subpart."</p>	<p>None</p>

#	Question		Regulation	
4	Are DOT tests separate from non-DOT tests in all respects, and do DOT tests take priority (i. e. DOT tests conducted and completed before a non-DOT test is begun, urine collected in a DOT test not used for a non-DOT test)?	Only DOT testing done. The only records in the office are DOT records.	Section 40.13(a) states: "DOT tests must be completely separate from non-DOT tests in all respects." Section 40.13(b) states: "DOT tests must take priority and must be conducted and completed before a non-DOT test is begun. For example, you must discard any excess urine left over from a DOT test and collect a separate void for the subsequent non-DOT test."	None
5	Are the following records maintained for a minimum of five years from the date of creation: (1) covered employee verified positive drug and alcohol test results; (2) documentation of refusals; (3) covered employee referrals to an SAP; (4) employer reports from SAPs; and (5) copies of annual MIS reports submitted to FTA?	Thought that it was 2 years, will make sure that the records that she has go back to 5 years. And will keep them for 5 years going forward.	Section 655.71(b)(1) states: "Records of covered employee verified positive drug or alcohol test results, documentation of refusals to take required drug or alcohol tests, and covered employee referrals to the substance abuse professional, and copies of annual MIS reports submitted to FTA [must be maintained for five years]." Section 40.311(h) states: "As an employer, you must maintain your reports from SAPs for 5 years from the date you received them."	The DAPM must provide a signed statement certifying that she has read and fully understands the requirements of 49 CFR Part 655.71(b)(1) and 40.311(h). DAPM will make sure that all records pertaining to these areas are kept for 5 years going forward and will include in the statement a description of how the records will be stored and accessed.
6	Does the employer maintain for three years all drug and alcohol test results obtained from previous employers for new hires or transfers into safety-sensitive positions?	Would keep it with everything else for 5 years.	Section 40.333(a)(2) states: "You must keep records for three years of information obtained from previous employers under Section 40.25 concerning drug and alcohol test results of employees."	Addressed in #5 above.

#	Question		Regulation	
7	Does the employer maintain records of the collection process and employee training for at least two years?	Yes, the records are maintained for at least 2 years. Will be kept for 5 years moving forward.	Section 655.71(b)(2) states: "Records related to the collection process and employee training [must be maintained for two years]."	Addressed in #5 above.
8	Does the employer maintain negative drug and alcohol test results for at least one year?	Yes, the records are maintained for at least 2 years. Will be kept for 5 years moving forward.	Section 655.71(b)(3) states: "Records of negative drug or alcohol test results [must be maintained for one year]."	Addressed in #5 above.
9	EMPLOYEE AND SUPERVISOR TRAINING: Do the records indicate that the employer complies with the employee and supervisor education and training requirements, including:1) Displaying and distributing drug and alcohol informational material? 2) Providing and documenting 60 minutes of employee drug awareness training? 3) Providing and documenting 120 minutes of supervisor reasonable suspicion drug and alcohol training? 4) Not requiring employees to sign drug and alcohol testing consent forms, except the required "prior employer" records release forms?			

#	Question		Regulation	
10	Do supervisors and/or other company officers authorized by the employer to make reasonable suspicion determinations receive at least 60 minutes of training on the physical, behavioral, and performance indicators of probable drug use and at least 60 minutes of training on the physical, behavioral, speech, and performance indicators of probable alcohol misuse?	Yes, viewed certificates for DAPM-Transit Director and DER-Assistant Transit Director.	Section 655.14 states: "Each employer shall establish an employee education and training program for all covered employees, including: (b) Training. (2) Supervisors and/or other company officers authorized by the employer to make reasonable suspicion determinations shall receive at least 60 minutes of training on the physical, behavioral, and performance indicators of probable drug use and at least 60 minutes of training on the physical, behavioral, speech, and performance indicators of probable alcohol misuse."	None
11	PRE-EMPLOYMENT RECORDS REQUESTS Does the employer:1) Obtain a specific written release from applicants for safety-sensitive positions;2) Request the information from all listed covered employers who employed the individual within the past two years; and3) Ask the applicant whether they have ever been denied a position on the basis of a positive drug or alcohol test?			

#	Question		Regulation	
12	Since August 1, 2001, has the employer obtained specific written consent from the applicant or employee to obtain information about prior DOT drug and alcohol test records from all DOT-regulated employers who employed the individual within the two years prior to the date of application?	They ask, but do not have it documented.		Addressed in #26 of Program Manager Interview report.
13	Does the employer perform the requests required by this part for all safety-sensitive applicants/transferees, or only those applying to a driver/cdl position?	Yes, Assistant Transit Director position applicants also get asked these questions.	Section 40.25(b) states: "You must request the information listed in this paragraph (b) from DOT-regulated employers who have employed the employee during any period during the two years before the date of the employee's application or transfer."	None
14	Does the employer ask each applicant or transferee whether he or she has tested positive, or refused a test, on any pre-employment drug or alcohol test administered by an employer to which the applicant or transferee applied for, but did not obtain, safety-sensitive transportation work covered by DOT agency drug and alcohol testing rules during the past two years?	Would do the pre-employment process for new applicants and with anyone transferring from a non-safety sensitive to a Safety Sensitive position. Not good documentation in place for recording this.	Section 40.25(j) states: "As the employer, you must also ask the employee whether he or she has tested positive, or refused to test, on any pre-employment drug or alcohol test administered by an employer to which the employee applied for, but did not obtain, safety-sensitive transportation work covered by DOT agency drug and alcohol testing rules during the past two years."	Addressed in #26 in Program Manager Interview report.

#	Question		Regulation	
15	<p>PRE-EMPLOYMENT TESTING: Does the auditor observe that the pre-employment testing program has the following characteristics: 1) Notification of FTA authority; 2) Verified negative result is received before the employee performs a safety-sensitive duty (or is hired if the transit system continues with the previous policy); 3) Cancelled tests, if any, must be retaken and passed before the employee performs a safety-sensitive duty (or is placed on the payroll); 4) No more than 90 days between the pre-employment test and the date the employee becomes subject to random testing.</p>			

#	Question		Regulation	
16	Does the employer receive a verified negative pre-employment drug test result for each applicant or transferee before the individual performs a safety-sensitive function for the first time?	Does keep track of it using employment records, but not in one place. Keeps pre-employment testing information in her DOT files and employment records are at HR office elsewhere.	Section 655.41(a)(1) states: "Before allowing a covered employee or applicant to perform a safety-sensitive function for the first time, the employer must ensure that the employee takes a pre-employment drug test administered under this part with a verified negative result. An employer may not allow a covered employee, including an applicant, to perform a safety-sensitive function unless the employee takes a drug test administered under this part with a verified negative result." Section 655.41(b) states: "An employer may not transfer an employee from a non-safety-sensitive function to a safety-sensitive function until the employee takes a pre-employment drug test administered under this part with a verified negative result." Safety-sensitive function includes the operation of a revenue-service vehicle, whether or not in revenue service. A pre-employment test result must be received before the employee first performs this function in training or as part of a road test.	Addressed in #22 in Program Manager Interview Report.

#	Question		Regulation	
17	Do the records indicate that no more than 90 days elapse between the receipt of the negative pre-employment test and the date the employee first performs a safety-sensitive duty and is placed into the random testing pool?	Not currently, but always ensures that the negative test is received before she releases anyone to perform safety-sensitive duties.	Section 655.41(d) states: "When a covered employee or applicant has not performed a safety-sensitive function for 90 consecutive calendar days regardless of the reason, and the employee has not been in the employer's random selection pool during that time, the employer shall ensure that the employee takes a pre-employment drug test with a verified negative result."	Addressed in #22 in Program Manager Interview Report.
18	Do the records indicate that, if a pre-employment drug test is cancelled, the employer requires the covered employee to take another pre-employment drug test administered under this part with a verified negative result?	Would send for re-testing immediately.	Section 655.41(c) states: "If a pre-employment drug test is canceled, the employer shall require the covered employee or applicant to take another pre-employment drug test administered under this part with a verified negative result."	None
19	If the employer chooses to conduct pre-employment alcohol testing, does the employer conduct all pre-employment alcohol tests using the alcohol testing procedures set forth in 49 CFR Part 40?	Yes, and produced her copy of 49 CFR 655 and 40.	Section 655.42(d) states: "The employer must conduct all pre-employment alcohol tests using the alcohol testing procedures set forth in 49 CFR Part 40."	None
20	REASONABLE SUSPICION TESTING: Do the records of Reasonable Suspicion testing indicate that the tests were properly ordered, adequately documented by trained supervisors, and completed within the required timeframes?		Null	

#	Question		Regulation	
21	Do the records indicate that the employer's determination, that reasonable suspicion existed to warrant testing, was based on specific, contemporaneous, articulable observations concerning the appearance, behavior, speech, or body odors of the covered employee?	No records of any done in the past few years. Both Director and Asst Director were very clear that they would recognize the signs and understand the procedures for referral and testing.	Section 655.43(b) states: "An employer's determination that reasonable suspicion exists shall be based on specific, contemporaneous, articulable observations concerning the appearance, behavior, speech, or body odors of the covered employee. A supervisor(s), or other company official(s) who is trained in detecting the signs and symptoms of drug use and alcohol misuse must make the required observations."	None
22	Do the records indicate that all reasonable suspicion tests were ordered by supervisor(s), or other company official(s) trained in detecting the signs and symptoms of drug use and alcohol misuse?	No records, but both the Director and Asst Director are trained and produced certificates.	Section 655.14(b)(2) states: "Supervisors. Supervisors and/or other company officers authorized by the employer to make reasonable suspicion determinations shall receive at least 60 minutes of training on the physical, behavioral, and performance indicators of probable drug use and at least 60 minutes of training on the physical, behavioral, speech, and performance indicators of probable alcohol misuse."	None

#	Question		Regulation	
23	Do the records indicate that if the reasonable suspicion alcohol test was not administered within two hours, there is a record stating the reasons the alcohol test was not promptly administered? If a reasonable suspicion alcohol test is not administered within eight hours, does the employer cease attempts to administer an alcohol test and state in the record the reasons for not administering the test?	No records, of any RS done, but they knew the 2 hour limits, were not sure of the 8 hours limit.	Section 655.43(d) states: "If an alcohol test required by this section is not administered within two hours following the determination [to test], the employer shall prepare and maintain on file a record stating the reasons the alcohol test was not promptly administered. If an alcohol test required by this section is not administered within eight hours following the determination [to test], the employer shall cease attempts to administer an alcohol test and shall state in the record the reasons for not administering the test."	The DAPM must provide a signed statement certifying that she has read and fully understands the requirements of 49 CFR Part 655.43(d). DAPM will use templates provided by RLS to create a documentation process for all reasonable suspicion decision making and testing activity.
24	POST-ACCIDENT TESTING: Do the records indicate that the post-accident testing program has the following characteristics: 1) Proper observance of FTA testing thresholds; 2) Proper notification of test authority; 3) Proper use of the federal CCF; 4) Testing completed within the required time limits or records maintained of testing efforts.		Null	
25	Do the records indicate that the employer performs an FTA post-accident test after an accident when an individual dies, regardless of whether the operator's performance can be completely discounted as a possibly contributing factor?	No records of any accident involving a fatality. Director and Asst Director understood the requirement	Section 655.44(a)(1)(i) states: "As soon as practicable following an accident involving the loss of human life, an employer shall conduct drug and alcohol tests on each surviving covered employee operating the mass transit vehicle at the time of the accident."	None

#	Question		Regulation	
26	Do the records indicate that the employer conducts FTA post-accident testing after non-fatal accidents that reach an FTA post-accident testing threshold (unless the employee's performance has been completely discounted as a factor contributing to the accident)?	The one post-accident test that they showed me as being performed did not meet the testing thresholds. Neither the Director or the Asst. Director knew the testing thresholds. The forms used were Non-DOT forms so no corrections were needed, but this was not because they knew to ask for Non-DOT testing.	Section 655.44(a)(2)(i) states: "As soon as practicable following an accident not involving the loss of human life in which a mass transit vehicle is involved, the employer shall drug and alcohol test each covered employee operating the mass transit vehicle at the time of the accident unless the employer determines, using the best information available at the time of the decision, that the covered employee's performance can be completely discounted as a contributing factor to the accident."	Addressed in #45 in Program Manager Interview report.

#	Question		Regulation	
27	Do any records indicate that the employer conducts post-accident testing using a federal CCF after an accident that does not meet an FTA post-accident threshold, or after a qualifying accident in which the employee has been discounted?	No, the test that was performed was done on a non-DOT CCF and ATF, but they were not aware of this.	Section 40.13(f) states: "As an employer, you must not use the CCF or the ATF in your non-DOT drug and alcohol testing programs. This prohibition includes the use of the DOT forms with references to DOT programs and agencies crossed out. You also must always use the CCF and ATF for all your DOT-mandated drug and alcohol tests." An "Accident" is defined in Section 655.4 as: "an occurrence associated with the operation of a vehicle, if as a result: (1) An individual dies; or (2) An individual suffers bodily injury and immediately receives medical treatment away from the scene of the accident; or (3) With respect to an occurrence in which the mass transit vehicle involved is a bus, electric bus, van, or automobile, one or more vehicles (including non-FTA funded vehicles) incurs disabling damage as the result of the occurrence and such vehicle or vehicles are transported away from the scene by a tow truck or other vehicle; or (4) With respect to an occurrence in which the mass transit vehicle involved is a rail car, trolley car, trolley bus, or vessel, the mass transit vehicle is removed from operation"	Addressed in #45 of Program Manager Interview report.

#	Question		Regulation	
28	Do the records indicate that the employer tests other covered employees whose performance could have contributed to a fatal or non-fatal accident?	No accidents on record for this, but they both knew the regulations	Section 655.44(a)(ii) states: "The employer shall also drug and alcohol test any other covered employee whose performance could have contributed to the accident, as determined by the employer using the best information available at the time of the decision."	None
29	Is the decision not to administer a post-accident drug and/or alcohol test documented in detail, including the decision-making process used to reach the decision not to test, in an accident where an FTA post-accident testing threshold was met?	No	Section 655.44(d) states: "The decision not to administer a drug and/or alcohol test under this section shall be based on the employer's determination, using the best available information at the time of the determination that the employee's performance could not have contributed to the accident. Such a decision must be documented in detail, including the decision-making process used to reach the decision not to test."	Addressed in #45 in Program Manager Interview report.
30	If a post-accident alcohol test is not administered within two hours following the accident, does the employer prepare and maintain on file a record stating the reasons the alcohol test was not promptly administered?	Not currently, but will use the logs and templates.	Section 655.44(a)(2)(ii) states: "If an alcohol test required by this section is not administered within two hours following the accident, the employer shall prepare and maintain on file a record stating the reasons the alcohol test was not promptly administered..."	See above

#	Question		Regulation	
31	If a post-accident alcohol test is not administered within eight hours following the accident, does the employer cease attempts to administer an alcohol test and maintain the record?	Was not aware of this	Section 655.44(a)(2)(ii) states: "... If an alcohol test required by this section is not administered within eight hours following the accident, the employer shall cease attempts to administer an alcohol test and maintain the record. Records shall be submitted to FTA upon request of the Administrator."	Addressed in #47 in Program Manager Interview report.
32	Is a covered employee who is required to be drug tested after an accident tested as soon as practicable, but within 32 hours of the accident?	Was not aware of the exact time, but knew that it was longer than alcohol	Section 655.44(b) states: "An employer shall ensure that a covered employee required to be drug tested under this section is tested as soon as practicable but within 32 hours of the accident."	Addressed in #47 in Program Manager Interview report.
33	If a covered employee who is subject to post-accident testing fails to remain readily available for such testing, is the employee deemed by the employer to have refused to submit to testing?	Knew that they would fire the individual but did not articulate why. Understand it now.	Section 655.44(c) states: "A covered employee who is subject to post-accident testing who fails to remain readily available for such testing, including notifying the employer or the employer representative of his or her location if he or she leaves the scene of the accident prior to submission to such test, may be deemed by the employer to have refused to submit to testing."	Addressed in #47 in Program Manager interview report.

#	Question		Regulation	
34	If the employer is unable to perform a post-accident test within the required timeframe and the employer uses the results of a blood, urine, or breath test conducted by Federal, State, or local officials having independent authority for the test, do such tests conform to the applicable Federal, State, or local testing requirements, and are the test results obtained by the employer?	Did not know this regulation.	Section 655.44(f) states: "The results of a blood, urine, or breath test for the use of prohibited drugs or alcohol misuse, conducted by Federal, State, or local officials having independent authority for the test, shall be considered to meet the requirements of this section provided such test conforms to the applicable Federal, State, or local testing requirements, and that the test results are obtained by the employer. Such test results may be used only when the employer is unable to perform a post-accident test within the required period noted in [Sections 655.44(a) and (b)]."	Addressed in #47 in Program Manager Interview report.
35	RANDOM TESTING: Do the records indicate that random testing has the required characteristics: 1) Draws are made frequently enough; 2) Random testing is performed at the required minimum rates; 3) Testing is spread reasonably; 4) Method is scientifically valid; 5) Notices are held confidentially; 6) Employees proceed immediately; 6) Excusals are valid and recorded.		Null	
36	Are random testing selections performed not less frequently than quarterly?	Random tests are performed quarterly	The preamble to Part 655 states: "FTA believes that requiring random testing to be conducted at least quarterly strikes a reasonable balance while considering the rule's impact on employers in rural areas."	None

#	Question		Regulation	
37	If a C/TPA provides selection lists to the employer, have these lists been provided in a consistent and timely fashion, such that the employer's ability to complete and spread random testing is not hindered?	The random draw lists are provided during the quarter usually in the second month. This does not allow them to do random draws in the first month of each quarter.	The preamble to Part 655 states: "FTA believes that requiring random testing to be conducted at least quarterly strikes a reasonable balance while considering the rule's impact on employers in rural areas." Section 655.45(g) states: "Each employer shall ensure that random drug and alcohol tests conducted under this part are unannounced and unpredictable, and that the dates for administering random tests are spread reasonably throughout the calendar year. Random testing must be conducted at all times of day when safety-sensitive functions are performed."	Addressed in #32 of Program Manager Interview report.
38	Has the employer met the FTA's published minimum annual percentage rate for random drug and alcohol testing?	Yes, but the DAPM was not aware of what the percentages were.	Section 655.45(a) states: "Except as provided in paragraphs (b) through (d) of this section, the minimum annual percentage rate for random drug testing shall be 50 percent of covered employees; the random alcohol testing rate shall be 10 percent. As provided in paragraph (b) of this section, this rate is subject to annual review by the Administrator."	Addressed in #42 in Program Manager Interview report.

#	Question		Regulation	
39	Is the selection of employees for random testing made by a scientifically valid method, and does each covered employee have an equal chance of being tested each time selections are made?	DAPM does not know. Has never had that communication with TPA	Section 655.45(e) states: "The selection of employees for random drug and alcohol testing shall be made by a scientifically valid method, such as a random number table or a computer-based random number generator that is matched with employees' Social Security numbers, payroll identification numbers, or other comparable identifying numbers. Under the selection process used, each covered employee shall have an equal chance of being tested each time selections are made."	Addressed in #28 in Program Manager Interview report.
40	Are random drug and alcohol tests unpredictable - e. g. , the dates for administering random tests are spread reasonably throughout the calendar year?	No, see #37 above	Section 655.45(g) states: "Each employer shall ensure that random drug and alcohol tests conducted under this part are unannounced and unpredictable, and that the dates for administering random tests are spread reasonably throughout the calendar year. Random testing must be conducted at all times of day when safety-sensitive functions are performed."	Addressed in #32 of Program Manager Interview report.

#	Question		Regulation	
41	Are random drug and alcohol tests unpredictable - e. g. , the tests are conducted on all days of the week when safety sensitive functions are performed?	No. The random testing log shows that all of the random testing done in 2014 was done on a Monday, Wednesday or Friday and between the hours of 10am and 12pm. See enclosed charts.	Section 655.45(g) states: "Each employer shall ensure that random drug and alcohol tests conducted under this part are unannounced and unpredictable, and that the dates for administering random tests are spread reasonably throughout the calendar year. Section 655 regulatory commentary: "FTA reiterated in the NPRM that a primary purpose of random testing is deterrence. Deterrence is most effectively achieved with random, unpredictable drug and alcohol testing that is conducted throughout all workdays and hours of service."	Addressed in #33 in Program Manager Interview report.
42	Are random drug and alcohol tests unpredictable - e. g. , the tests are conducted at all times of the day when safety sensitive functions are performed?	No. See above.	Section 655.45(g) states: "Each employer shall ensure that random drug and alcohol tests conducted under this part are unannounced and unpredictable, and that the dates for administering random tests are spread reasonably throughout the calendar year. Random testing must be conducted at all times of day when safety-sensitive functions are performed."	Addressed in #33 in Program Manager Interview report.

#	Question		Regulation	
43	Do the records indicate that all covered employees are proceeding to the collection site immediately upon notification of their selection for a random drug and/or alcohol test?	No record of check in at facility, but random test log shows that tests are being performed within reasonable travel time to get to test site. DAPM reports that DER transports all employees, but that DAPM and DER go on their own with no way of tracking reasonable check in times.	Section 655.45(h) states: "Each employer shall require that each covered employee who is notified of selection for random drug or random alcohol testing proceed to the test site immediately. If the employee is performing a safety-sensitive function at the time of the notification, the employer shall instead ensure that the employee ceases to perform the safety-sensitive function and proceeds to the testing site immediately."	Addressed in #13 in Program Manager Interview report.
44	Are records of excusals maintained, and do the records indicate that employees are only excused from random testing for legitimate reasons (e.g., on vacation, out sick)?	Recorded on random draw list, would list reason and alternate used.	Section 655.45(e) states: "Under the selection process used, each covered employee shall have an equal chance of being tested each time selections are made."	None
45	ACTIONS AFTER NON-NEGATIVE TEST RESULTS: Do the records indicate that for each non-negative or refused drug or alcohol test result:1) the employee is immediately removed from safety-sensitive duties; and 2) the employee is referred to a qualified SAP who is reasonably available to the employee?		Null	

#	Question		Regulation	
46	Upon receiving notice that a covered employee has a verified positive test result, does the DER immediately remove the employee from performing safety-sensitive functions?	Would remove them safety-sensitive duties immediately.	Section 655.61(a)(1) states: "Immediately after receiving notice from a medical review officer (MRO) or a consortium/third party administrator (C/TPA) that a covered employee has a verified positive drug test result, the employer shall require that the covered employee cease performing a safety-sensitive function."	None
47	Upon receiving notice from the BAT that a covered employee has a confirmed alcohol test result of 0.02 or greater, does the DER immediately remove the employee from performing safety-sensitive functions?	Yes	Section 655.61(a)(2) states: "Immediately after receiving notice from a Breath Alcohol Technician (BAT) that a covered employee has a confirmed alcohol test result of 0.04 or greater, the employer shall require that the covered employee cease performing a safety-sensitive function."	None
48	Upon receiving notice that a covered employee has refused to submit to a test, does the DER immediately remove the employee from performing safety-sensitive functions?	Yes	Section 655.61(a)(3) states: "If an employee refuses to submit to a drug or alcohol test, the employer shall require that the covered employee cease performing a safety-sensitive function."	None

#	Question		Regulation	
49	Does the employer provide each employee who violates a DOT drug and/or alcohol regulation (including applicants or new employees) a list of SAPs readily available to the employee and acceptable to the employer, including names, addresses, and telephone numbers?	Not currently.	Section 40.287 states: "As an employer, you must provide to each employee (including an applicant or new employee) who violates a DOT drug and alcohol regulation a listing of SAPs readily available to the employee and acceptable to you, with names, addresses, and telephone numbers. You cannot charge the employee any fee for compiling or providing this list. You may provide this list yourself or through a C/TPA or other service agent."	Addressed in #53 in Program Manager Interview report.
50	RETURN TO DUTY AND FOLLOW-UP TESTING: If the company has a Second-Chance policy, do the records indicate that the Return-to-Duty and Follow-up process is conducted properly, including:1) Evaluation by a properly qualified SAP;2) Receipt of the initial evaluation report by the SAP;3) Return to Duty test after written recommendation by the SAP;4) Receipt of the frequency and duration of follow-up testing plan from the SAP; 5) Adherence to the follow-up testing plan; and 6) All RTD/Follow-up tests conducted since 9/1/2009 have been performed under direct observation?		Null	

#	Question		Regulation	
51	Does the employer ensure that an employee with direct or immediate supervisory responsibility or authority over another employee does not serve as the urine collection person, breath alcohol technician, or saliva-testing technician for a drug or alcohol test of the employee?	N/A. They use Work Pro Southeastern Medical services or local hospital for all collections.	Section 655.53 states: "An employer shall not permit an employee with direct or immediate supervisory responsibility or authority over another employee to serve as the urine collection person, breath alcohol technician, or saliva-testing technician for a drug or alcohol test of the employee."	N/A
52	Does the employer ensure that before an employee returns to safety-sensitive duties following a regulatory violation, the employee receives an evaluation by a SAP meeting the requirements of Section 40.281, and that the employee successfully complies with the recommendations in the SAP evaluation?	Based on them having a zero tolerance policy they do not know much about Return-to-Duty or Follow up testing. Will review the regulation so that they know where to find the information if they need it.	Section 40.289(b) states: "If you offer an employee an opportunity to return to a DOT safety-sensitive duty following a violation, you must, before the employee again performs that duty, ensure that the employee receives an evaluation by a SAP meeting the requirements of Section 40.281 and that the employee successfully complies with the SAP's evaluation recommendations."	Addressed in #56 in Program Manager Interview report.

#	Question		Regulation	
53	Does the SAPs written report of the initial evaluation meet the reporting requirements of Part 40?	See above	Section 40.311(b) states: "The SAP's written report, following an initial evaluation that determines what level of assistance is needed to address the employee's drug and/or alcohol problems, must be on the SAP's own letterhead (and not the letterhead of another service agent) signed and dated by the SAP, and must contain the following delineated items: (1) Employee's name and SSN; (2) Employer's name and address;(3) Reason for the assessment (specific violation of DOT regulations and violation date);(4) Date(s) of the assessment;(5) SAP's education and/or treatment recommendation; and (6) SAP's telephone number."	Addressed in #56 in Program Manager Interview report.

#	Question		Regulation	
54	Does the SAPs written report of the follow-up evaluation meet the reporting requirements of Part 40?	See above	Section 40.311(d) states: "The SAP's written report concerning a follow-up evaluation that determines the employee has demonstrated successful compliance must be on the SAP's own letterhead (and not the letterhead of another service agent), signed by the SAP and dated, and must contain the following items:(1) Employee's name and SSN;(2) Employer's name and address;(3) Reason for the initial assessment (specific violation of DOT regulations and violation date);(4) Date(s) of the initial assessment and synopsis of the treatment plan;(5) Name of practice(s) or service(s) providing the recommended education and/or treatment; (6) Inclusive dates of employee's program participation; (7) Clinical characterization of employee's program participation;(8) SAP's clinical determination as to whether or not the employee has demonstrated successful compliance;(9) Follow-up testing plan;(10) Employee's continuing care needs with specific treatment, aftercare, dates of any further follow-up evaluation the SAP has scheduled, and/or support group services recommendations; and (11) SAP's telephone number."	Addressed in #56 in Program Manager Interview report.

#	Question		Regulation	
55	If the employer decides to permit an employee to return to the performance of safety-sensitive functions, does the employer ensure that the employee takes a return-to-duty drug and/or alcohol test with a negative result and that this test does not occur until after the SAP has determined that the employee has successfully complied with prescribed education and/or treatment?	See above	Section 40.305(a) states: "As the employer, if you decide that you want to permit the employee to return to the performance of safety-sensitive functions, you must ensure that the employee takes a return-to-duty test. This test cannot occur until after the SAP has determined that the employee has successfully complied with prescribed education and/or treatment. The employee must have a negative drug test result and/or an alcohol test with an alcohol concentration of less than 0.02 before resuming performance of safety-sensitive duties."	Addressed in #56 in Program Manager Interview report.
56	Do the records indicate that the employer is conducting follow-up testing in accordance with SAPs prescribed testing requirements, and does the employer schedule follow-up tests on dates of its own choosing, in an unpredictable manner, and with no prior notice to the employee?	See above	Section 40.309(a) states: "As the employer, you must carry out the SAP's follow-up testing requirements. You may not allow the employee to continue to perform safety-sensitive functions unless follow-up testing is conducted as directed by the SAP."	Addressed in #56 in Program Manager Interview report.

#	Question		Regulation	
57	Do the records indicate that the employer ever substitutes any other tests (e.g., random tests, post-accident tests) or a cancelled follow-up test to comply with the SAPs follow-up testing requirement?	See above	Section 40.309(d) states: "You [the employer] cannot substitute any other tests (e.g., those carried out under the random testing program) conducted on the employee for this follow-up testing requirement." Section 40.309(c) states: "You [the employer] cannot count a follow-up test that has been cancelled as a completed test. A cancelled follow-up test must be recollected."	Addressed in #56 in Program Manager Interview report.
58	Do the records indicate that all Return-to-duty and Follow-up tests conducted since September 1, 2009 have been performed under direct observation?	See above	Section 40.67(b) states: "As an employer, you must direct a collection under direct observation of an employee if the drug test is a return-to-duty test or a follow-up test."	Addressed in #56 in Program Manager Interview report.
59	If the record includes any case(s) in which a return-to-duty or follow-up test that should have been observed was not, did the MRO or other vendor hold the original result and request that the employer immediately direct the employee to submit to recollection under direct observation?	See above	A notice from the Department of Transportation's Office of Drug and Alcohol Policy and Compliance, dated September 10, 2009, reads: "If a collector, Medical Review Office (MRO), Third Party Administrator (TPA), or other service agent learns that a Direct Observation collection using the required procedures was not conducted, the employer needs to be informed. Upon learning that a Direct Observation collection using the required procedures was not conducted, the employer needs to direct the employee to have an immediate recollection under Direct Observation."	Addressed in #56 in Program Manager Interview report.

#	Question		Regulation	
60	<p>GENERAL TESTING REQUIREMENTS: Does the auditor observe that the employer or service agent maintains compliance with the following: 1) Adherence to company policy regarding the treatment of dilute negative test results; 2) Fatally flawed tests are canceled and the collector is retrained;3) Correctable flaws are corrected with an affidavit and the collector is retrained; 4) Canceled pre-employment, return-to-duty and follow-up tests are immediately rescheduled by the employer and a successful collection is obtained; 5) Employer immediately schedules an observed collection when required to do so by the MRO and a successful observed collection is obtained; 6) The employer does not require consent or release of liability from its employees or applicants; 7) The employer notifies employees/applicants of the requirement that testing is performed under the authority of FTA's 49 CFR Part 655; and 8) Supervisors with direct or immediate authority over an employee do not act as the collector or alcohol technician for that employee?</p>		Null	

#	Question		Regulation	
61	If the employer has received any dilute-negative test results, do the records indicate that the employer has reacted in a manner consistent with its policy?	No record on this happening, but they both stated that they would do a re-test per their policy.	Section 40.197(b) states: "If the MRO informs you [the employer] that a negative drug test was dilute, you may, but are not required to, direct the employee to take another test immediately. Such recollections must not be collected under direct observation, unless there is another basis for use of direct observation." Section 40.197(c) states: "You [the employer] must treat all employees the same for this purpose. For example, you must not retest some employees and not others. You may, however, establish different policies for different types of tests (e.g., conduct retests in pre-employment test situations, but not in random test situations). You must inform your employees in advance of your decisions on these matters."	None

#	Question		Regulation	
62	Do the records indicate that the employer or other person administering the drug and alcohol testing process reviews CCFs and identifies and corrects any errors in the testing process of which they become aware, even if they are not considered problems that will cause a test to be cancelled?	The CCFs showed several errors that need to be corrected. They did not know what to look for and have never reviewed them for anything other than the test result.	Section 40.209(a) states: "As a collector, laboratory, MRO, employer or other person administering the drug testing process, you must document any errors in the testing process of which you become aware, even if they are not considered problems that will cause a test to be cancelled as listed in this subpart. Decisions about the ultimate impact of these errors will be determined by other administrative or legal proceedings, subject to the limitations of paragraph b of this section [40.209(b)]." Section 40.275(a) states: "As an STT, BAT, employer, or a service agent administering the testing process, you must document any errors in the testing process of which you become aware, even if they are not fatal flaws or correctable flaws."	Addressed in #11 in Program Manager Interview Report.

#	Question		Regulation	
63	Do the records indicate that any drug or alcohol tests were cancelled because they were determined to be fatally flawed? If so, has the transit operator sought and received indication that the service agent has received the required retraining?	None that I saw.	Section 40.33(f) states: "Error Correction Training. If you make a mistake in the collection process that causes a test to be cancelled or rejected (i.e., a fatal or uncorrected flaw), you must undergo error correction training. This training must occur within 30 days of the date you are notified of the error that led to the need for retraining." Section 40.33(g) states: "Documentation. You must maintain documentation showing that you currently meet all requirements of this section. You must provide this documentation on request to DOT agency representatives and to employers and C/TPAs who are using or negotiating to use your services."	Addressed in #11 in Program Manager Interview Report.

#	Question		Regulation	
64	Do the records indicate that any drug or alcohol tests which had correctable flaws were cancelled because they were not properly resolved? If tests were cancelled, has the transit operator sought and received indication that the service agent has received the required retraining?	None available to see, no knowledge of it.	Section 40.205(b) states: "If, as a collector, laboratory, MRO, employer, or other person implementing these drug testing regulations, you become aware of a problem that can be corrected (see Section 40.203), but which has not already been corrected under paragraph (a) of this section, you must take all practicable action to correct the problem so that the test is not cancelled." Section 40.33(f) states: "Error Correction Training. If you make a mistake in the collection process that causes a test to be cancelled or rejected (i.e., a fatal or uncorrected flaw), you must undergo error correction training. This training must occur within 30 days of the date you are notified of the error that led to the need for retraining." Section 40.33(g) states: "Documentation. You must maintain documentation showing that you currently meet all requirements of this section. You must provide this documentation on request to DOT agency representatives and to employers and C/TPAs who are using or negotiating to use your services."	Addressed in #11 in Program Manager Interview Report.

#	Question		Regulation	
65	Do the records indicate that, after receipt of a cancelled test result when a negative result is required (i.e. pre-employment, return-to-duty, or follow-up test), the employer directed the employee to provide another specimen immediately and was that specimen properly collected?	None obvious, no Knowledge	Section 40.23(g) states: "As an employer who receives a cancelled test result when a negative result is required (e.g., pre-employment, return-to-duty, or follow-up test), you must direct the employee to provide another specimen immediately."	Addressed in #11 in Program Manager Interview Report.
66	Do the records indicate that, after the MRO required an immediate observed collection, the employer directed an immediate collection under direct observation with no advance notice to the employee, and that the specimen was properly obtained?	DAPM and DER were not aware of what an observed test was or what it involved and did not know when one would be required.	Section 40.67(a) states: "As an employer you must direct an immediate collection under direct observation with no advance notice to the employee, if: ... (2) The MRO reported to you that the original positive, adulterated, or substituted test result had to be cancelled because the test of the split specimen could not be performed."	The DAPM must provide a signed statement certifying that she has read and fully understands the requirements of 49 CFR Part 40.67 "When and how is a directly observed collection conducted".

#	Question		Regulation	
67	<p>Does the employer request the following information from the DOT-regulated employers who have employed the applicant or transferee for any period during the two years prior to the date of application or transfer: (1) Alcohol tests with a result of 0.04 or higher alcohol concentration; (2) Verified positive drug tests;(3) Refusals to be tested (including verified adulterated or substituted drug test results); (4) Other violations of DOT agency drug and alcohol testing regulations; and (5) With respect to any employee who violated a DOT drug and alcohol regulation, documentation of the employee's successful completion of DOT return-to-duty requirements (including follow-up tests)?</p>	<p>Yes, but had not documented it beyond a previous employment section on current application.</p>	<p>Section 40.25(a) states: " As an employer, you must, after obtaining an employee's written consent, request the information about the employee listed in Section 40.25(b). Section 40.25(b) states: "You must request the following information from DOT-regulated employers who have employed the employee during any period during the two years before the date of the employee's application or transfer: (1) Alcohol tests with a result of 0. 04 or higher alcohol concentration;(2) Verified positive drug tests; (3) Refusals to be tested (including verified adulterated or substituted drug test results); (4) Other violations of DOT agency drug and alcohol testing regulations; and (5) With respect to any employee who violated a DOT drug and alcohol regulation, documentation of the employee's successful completion of DOT return-to-duty requirements (including follow-up tests). If the previous employer does not have information about the return-do-duty process (e. g. , an employer who did not hire an employee who tested positive on a pre-employment test), you must seek to obtain this information from the employee."</p>	<p>DAPM must provide a signed statement certifying that she has read and fully understands the requirements of 49 CFR Part 40.25(a)(b). DAPM will use the templates provided by RLS to create a documentation process for this requirement and will provide a copy of the form developed with the written statement to show how this requirement will be met going forward.</p>

#	Question		Regulation	
68	Does the employer require an employee to sign a consent, release, waiver of liability, or indemnification agreement with respect to any part of the drug or alcohol testing process covered by Part 40 (including, but not limited to, collections, laboratory testing, and MRO and SAP services)?	No they were clear they don't do that. Nothing in records showing it.	Section 40.27 states: "As an employer, you must not require an employee to sign a consent, release, waiver of liability, or indemnification agreement with respect to any part of the drug or alcohol testing process covered by this part (including, but not limited to, collections, laboratory testing, MRO and SAP services)."	None
69	Before performing a drug or alcohol test under Section 655, does the employer notify the covered employee that the test is required under Section 655?	Nothing currently, but will use new Order to Test template ongoing.	Section 655.17 states: "Before performing a drug or alcohol test under this part, each employer shall notify a covered employee that the test is required by this part. No employer shall falsely represent that a test is administered under this part."	Addressed in #13 in Program Manager Interview report.
0	FINAL SECTION: ACCESS TO RECORDS			
70	If the C/TPA or other service agent acts as an intermediary in the transmission of drug and alcohol testing information, has the employer chosen to have the C/TPA or other service agent perform this function?	N/A	Section 40.345(a) states: "As a C/TPA or other service agent, you may act as an intermediary in the transmission of drug and alcohol testing information in the circumstances specified in Section 40.345 only if the employer chooses to have you do so. Each employer makes the decision about whether to receive some or all of this information from you, acting as an intermediary, rather than directly from the service agent who originates the information (e.g., an MRO or BAT)."	None

#	Question		Regulation	
71	If the C/TPA maintains records for the employer, were those records made available to the audit team in an appropriate and timely manner?	N/A	Section 40.331(c) states: "If you are a service agent, you must, upon request of DOT agency representatives, provide the following:(1) Access to your facilities used for this part and DOT agency drug and alcohol program functions. (2) All written, printed, and computer-based drug and alcohol program records and reports (including copies of name-specific records or reports), files, materials, data, documents/documentation, agreements, contracts, policies, and statements that are required by this part and DOT agency regulations. You must provide this information at your principal place of business in the time required by the DOT agency. (3) All items in paragraph (b)(2) of this section must be easily accessible, legible, and provided in an organized manner. If electronic records do not meet these standards, they must be converted to printed documentation that meets these standards."	None

#	Question		Regulation	
72	Did the employer permit access to all facilities utilized and records compiled in complying with the requirements of this part and disclose data for its drug and alcohol testing programs, and any other information pertaining to the employer's anti-drug and alcohol misuse programs to the Secretary of Transportation or any DOT agency with regulatory authority over the employer or any of its employees or to a State oversight agency authorized to oversee rail fixed guide way systems?	Yes	Section 655.73(d) states: "An employer shall disclose data for its drug and alcohol testing programs, and any other information pertaining to the employer's anti-drug and alcohol misuse programs required to be maintained by this part, to the Secretary of Transportation or any DOT agency with regulatory authority over the employer or covered employee or to a State oversight agency authorized to oversee rail fixed guide way systems, upon the Secretary's request or the respective agency's request." Section 655.73(c) states: "An employer shall permit access to all facilities utilized and records compiled in complying with the requirements of this part to the Secretary of Transportation or any DOT agency with regulatory authority over the employer or any of its employees or to a State oversight agency authorized to oversee rail fixed guide way systems upon the Secretary's request or the respective agency's request."	None
0	THAT WAS THE LAST QUESTION. THANK YOU FOR YOUR TIME AND INPUT.
