The following is work scheduled to occur on state highways within the Ohio Department of Transportation District 1, which includes the counties of Allen, Defiance, Hancock, Hardin, Paulding, Putnam, Van Wert and Wyandot. The schedule of work is dependent upon weather conditions, and unless otherwise noted, work will take place during daytime hours.

For the latest in statewide construction visit [www.ohgo.com](http://www.ohgo.com).

Please contact us at 419-999-6803; D01.PIO@dot.ohio.gov for information regarding highway construction in the area.

**ALLEN COUNTY**

**Interstate 75** between state Route 81 and state Route 65, Lima, will be restricted to one lane in both directions for repair of pavement under warranty through early July. Work will take place on the mainline lanes, as well as on the southbound entrance and exit ramps at state Route 81. Work is being performed by Kokosing Construction Company, Westerville.

**State Route 65** between Fourth Street and Elm Street, within the city of Lima, will be restricted to one lane of through traffic in each direction through the work zone for pavement resurfacing. Work is being performed by Bluffton Paving, Bluffton.

**State Route 66** between Kolter Road and the Auglaize County line, just south of the village of Spencerville, will close Monday, July 8, for approximately 60 days for the replacement of eight culverts. Traffic will be detoured onto state Route 117, state Route 116 and state Route 197 back to state Route 66. Work is being performed by Vernon Nagel, Inc., Napoleon.

**State Route 81** between Wapak Road and Defiance Trail, west of Lima, will be restricted to one lane through the work zone for pavement repairs. Work is being performed by the ODOT Allen County maintenance garage.

**State Route 117** between Greely Chapel Road and Bowman Road, Lima, will be restricted to one lane in each direction through the work zone for pavement resurfacing. The project also includes replacement of curbs, catch basins and crossover drainage pipes. Work is expected to continue through late June. Work is being performed by Bluffton Paving, Bluffton.
State Route 198 between state Route 117 and Bice Road, just north of the Auglaize County line, will close Monday, June 17, for approximately five days for a culvert replacement. Traffic will be detoured onto state Route 117, state Route 66 and state Route 197 back to state Route 198. Work is being performed by the ODOT Allen County maintenance garage. (see map)

State Route 309 between the Allen County Fairgrounds and the Hardin County line will be restricted to one lane through the work zone for pavement resurfacing. The project also includes drainage work near the Allen County Fairgrounds. Work is being performed by Bluffton Paving, Bluffton.

State Route 103 (Jefferson Street) over Riley Creek, between Huber Street and Vance Street within the village of Bluffton, will close Monday, July 1, for approximately four months for a bridge replacement. The closure will take place within a larger active work zone for a village water line replacement project, which is already underway between county Road 15 (County Line Road) and Main Street. Local access is maintained throughout the village’s work zone, but traffic will be unable to cross the bridge during the ODOT bridge replacement project. Traffic will be detoured county Road 15 (County Line Road) and Main Street back to Jefferson Street. The bridge replacement project is being performed by Eagle Bridge Company, Sidney.

First Street over Flat Fork Creek, east of Pierce Street near Delphos St. John’s School, will close Monday, June 17, for approximately 45 days for a bridge replacement. The project is being administered by the Ohio Department of Transportation on behalf of the city of Delphos. Work is being performed by The Eclipse Company, Chagrin Falls.

Third Street over Flat Fork Creek, between Douglas Street and Scott Street within the city of Delphos, closed May 13 for approximately two months for a bridge replacement project. Traffic is detoured onto Scott Street, Second Street, and Douglas Street back to Third Street. The project is being administered by the Ohio Department of Transportation on behalf of the city of Delphos. Work is being performed by The Eclipse Company, Chagrin Falls.

DEFIANCE COUNTY

For more information regarding the Clinton Street bridge replacement project within the city of Defiance, visit the project website here. The bridge closed Feb. 25 for approximately nine months for a full replacement.

State Route 18 between state Route 281 and the Henry County line, east of the city of Defiance, will be restricted to one lane through the work zone for a chip seal project during the week of July 8. Work is being performed by the ODOT Defiance County maintenance garage.

State Route 49 between the village of Hicksville and the Williams County line will be restricted to one lane through the work zone for pavement crack sealing. Work is being performed by the ODOT Defiance County maintenance garage.

State Route 281 between the city of Defiance and the Henry County line will be restricted to one lane through the work zone for a chip seal project during the week of July 8. Work is being performed by the ODOT Defiance County maintenance garage.
HANCOCK COUNTY

For information regarding the **Interstate 75 reconstruction and widening project** through Findlay and Hancock County, visit the project website [here](#).

**State Route 37** between state Route 15 and township road 166, north of Mount Blanchard, will close Wednesday, June 26, for approximately three days for a culvert replacement. Traffic will be detoured onto state Route 103, U.S. 68 and state Route 15 back to state Route 37. Work is being performed by the ODOT Hancock County maintenance garage. ([see map](#))

**State Route 103** between state Route 698 and township Road 71, between the villages of Jenera and Arlington, closed Monday, June 10, for approximately 45 days for a pavement repair and shoulder widening project. Traffic is detoured onto state Route 235, U.S. 30 and U.S. 68 back to state Route 103. Work is being performed by Helms and Sons, Findlay. ([see map](#))

**U.S. 224** between township Road 254 and township Road 255, east of Findlay, will close Wednesday, June 19, for approximately three days for a culvert replacement. Traffic will be detoured onto state Route 12 and U.S. 23 back to U.S. 224. Work is being performed by the ODOT Hancock County maintenance garage. ([see map](#))

**State Route 235** between county Road 313 and the Wood County line, excluding its overlaps with state Route 12 and state Route 186, will be restricted to one lane through the work zone for pavement resurfacing. Work is being performed by the Shelly Company, Findlay.

**State Route 235** in the following locations within Hancock County will close for culvert replacement projects. Work is being performed by the ODOT Hancock County maintenance garage.

- **State Route 235** between township Road 47 and state Route 12, north of Mount Cory, is now open following a culvert replacement.
- **State Route 235** between state Route 12 and U.S. 224, north of Benton Ridge, is now open following a culvert replacement.
- **State Route 235** between county Road 203 and township Road 11, north of McComb, will close Monday, June 17, for approximately five days for a culvert replacement. Traffic will be detoured onto state Route 613, Interstate 75 and state Route 18 back to state Route 235. ([see map](#))

HARDIN COUNTY

**State Route 67** at township Road 119, west of the city of Kenton, closed Monday, June 3, for approximately 75 days for a culvert replacement. The project also includes the repainting of state Route 67 and township Road 119 to enhance sight distance at their intersection. **Township Road 119** at state Route 67 is also closed during the project. The following detours are in place. Work is being performed by R & I Construction, Tiffin. ([see map](#))

- **State Route 67** traffic is detoured onto state Route 235 and state Route 309 back to state Route 67.
- **Township Road 119** traffic is detoured onto township Road 95, township Road 180 and county Road 115 back to township Road 119.
State Route 701 between state Route 309 and county Road 75 will close Monday, June 24, for approximately 45 days for the replacement of two bridges. Traffic will be detoured onto state Route 309 and U.S. 68 back to state Route 709. Work is being performed by the Shelly Company, Findlay. (see map)

PAULDING COUNTY

State Route 613 between the Indiana state line and the Putnam County line will be restricted to one lane through the work zone for the removal of raised pavement markings. Work is being done in preparation for a chip seal project. Work is being performed by the ODOT Paulding County maintenance garage.

State Route 613 between township Road 21 and township Road 33, just west of the village of Payne, closed Monday, June 10, for approximately five days for a culvert replacement. Traffic is detoured onto state Route 500 and county Road 1 (State Line Road) back to state Route 613. Work is being performed by the ODOT Paulding County maintenance garage. (see map)

Township Road 187 at state Route 613, between the villages of Oakwood and Melrose, is expected to close Monday, June 17, for approximately five days for a culvert replacement. Work is being performed by the ODOT Paulding County maintenance garage.

PUTNAM COUNTY

State Route 114 between U.S. 224 and Road M, within the village of Kalida, will be restricted to one lane through the work zone for pavement resurfacing through late July. Work is being performed by the Shelly Company, Findlay.

U.S. 224 between the Van Wert County line and the eastern corporation limit of Kalida, excluding the village of Ottoville, will be restricted to one lane through the work zone for pavement resurfacing through late July. Work is being performed by the Shelly Company, Findlay.

U.S. 224/state Route 15 (Main Street) near Pratt Street, east of state Route 65 (Elm Street) within the village of Ottawa, is now open following a water line installation project.

VAN WERT COUNTY

State Route 49 between the village of Wren and U.S. 224 will be restricted to one lane through the work zone for pavement repairs. Work is being performed by the ODOT Van Wert County maintenance garage.

State Route 81 between county Road 103 (Mendon Road) and Thomas Road, west of the village of Elgin, closed May 6 for approximately 45 days for the replacement of twin culvert structures. The project also includes additional drainage work on each side of the roadway. Traffic is detoured onto U.S. 127, state Route 709 and state Route 116 back to state Route 81. Work is being performed by VTF Excavation, Celina. (see map)

State Route 116 between the Auglaize County line and Middle Point Road, excluding its overlap with state Route 117, will be restricted to one lane through the work zone for pavement resurfacing. Work is being performed by Shelly Company, Findlay.
U.S. 127 between the city of Van Wert and the Mercer County line will be restricted to one lane through the work zone for pavement repairs. Work is being performed by the ODOT Van Wert County maintenance garage.

Jefferson Street over Town Creek, between Main Street and Crawford Street within the city of Van Wert, will close in mid-June for a bridge replacement. Details on the closure date and timeframe will be forthcoming. Utility relocation work is currently underway in the area. Northbound traffic will be detoured onto Crawford Street, Shannon Street and Main Street back to Jefferson Street. Southbound traffic will be detoured onto Central Avenue, Washington Street and Crawford Street back to Jefferson Street. The project is being administered by the Ohio Department of Transportation on behalf of the city of Van Wert. Work is being performed by Eagle Bridge Company, Sidney.

WYANDOT COUNTY

U.S. 23 over Tymochtee Creek, just north of township Highway 103, will be restricted to one lane in each direction for a bridge rehabilitation project. The project also includes resurfacing of U.S. 23 between county Road 97 and the U.S. 30 interchange, north of Upper Sandusky. Lane restrictions are possible within the entire work zone for work done in preparation for resurfacing. A width restriction of 15.5 feet is in place within the work zone. Work is being performed by The Shelly Company, Findlay.

State Route 67 between state Route 103 and the northern corporation limit of Sycamore, within the village of Sycamore, will be restricted to one lane through the work zone for pavement resurfacing. Work is being performed by Kokosing Construction Company, Columbus.

State Route 67/state Route 231 overlap over Sycamore Creek, between Kilborn Street and state Route 231 within the village of Sycamore, closed March 11 for approximately four months during a bridge rehabilitation project. The following detours are associated with the project. Work is being performed by R&I Construction, Tiffin.

- State Route 67 traffic is detoured onto state Route 103 and state Route 100 back to state Route 67. (see map)
- State Route 231 traffic is detoured onto state Route 103, state Route 100 and U.S. 224 back to state Route 231. (see map)

State Route 103 between state Route 199 and the Crawford County line, excluding its overlap with state Route 53, will be restricted to one lane through the work zone for pavement resurfacing. Work is being performed by Kokosing Construction Company, Columbus.

State Route 199 between U.S. 23 and the village of Carey will be restricted to one lane through the work zone for guardrail repairs. Work is being performed by Lake Erie Construction, Norwalk.

State Route 231 between county Highway 330 (Lincoln Highway) and the Seneca County line will be restricted to one lane through the work zone for pavement resurfacing. Work is being performed by Kokosing Construction Company, Columbus.
State Route 231 between state Route 294 and state Route 103 will be restricted to one lane through the work zone for guardrail repair. Work is being performed by Lake Erie Construction, Norwalk.
