
Project Update

Interstate 75 Reconstruction -- Lima, Allen County

July 1, 2016

I-75 northbound to be restricted for next few weeks, Ohio 65 northbound exit ramp to close daily

Interstate 75 from the Auglaize County line to Fourth Street, through Lima and Allen County, will have occasional lane closures throughout the year during the final year of the reconstruction of the interstate. Current and upcoming impacts to traffic are as follows:

- Traffic on I-75 north and south of the Ohio 65 interchange area continues to travel in a contraflow pattern where two southbound lanes and one northbound lane of traffic are traveling on the southbound side of the interstate, and one northbound lane is traveling on the northbound side of the interstate. Traffic will remain in this pattern until late summer.
- Traffic on I-75 northbound will continue to be reduced to one lane through the contraflow zone Monday through Friday for approximately the next three weeks, from approximately 6 a.m. to 2 p.m. each day, for drainage and bridge work. **The lane closure will not occur today nor on Monday, July 4th.**
 - The exit ramp from northbound Interstate 75 to Ohio 65 will be closed during these same hours Monday through Friday from 6 a.m. to 2 p.m. **The ramp will not be closed today nor on Monday, July 4th.**
 - Traffic will be detoured north on Interstate 75 to Fourth Street to Interstate 75 southbound to Ohio 65.
- Heavy truck traffic will be present throughout the project for the next several weeks, especially in the area of the Ohio 65 interchange and the Yoder Road area, near the Orthopedic Institute of Ohio complex.
- Hanthorn Road over Interstate 75 was reopened on June 28.
- Paving of the final layer of asphalt throughout the project is expected to take place in late July and early August.

About the I-75 Project Phases:

Project 1 of the Interstate 75 reconstruction project, which is the replacement of the Fourth Street and Reservoir Road bridges over Interstate 75 in Lima, was completed in the spring of 2014. Project 2 reconstructed the existing lanes of Interstate 75 from Fourth Street to just north of Ohio 81 in Lima. This phase also includes the reconstruction of the Fourth Street, Ohio 81 and Ohio 117/309 interchanges; a safety upgrade to Ohio 309 east of the Interstate 75 interchange; and the reconstruction and realignment of Ohio 81 from Neubrecht to Stewart Road. This phase was completed in 2014. Project 3, from the Auglaize County line to Fourth Street, began in 2014. This phase also includes the reconstruction of the Breese Road and Ohio 65

interchanges as well as the replacement of the Hanthorn and McClain Road bridges over Interstate 75. The overall project is scheduled to be completed in 2016.
