RECONSTRUCTION
AND WIDENING
In Hancock County through the city of Findlay

Interstate 75 northbound, Findlay, to be three lanes by tomorrow morning

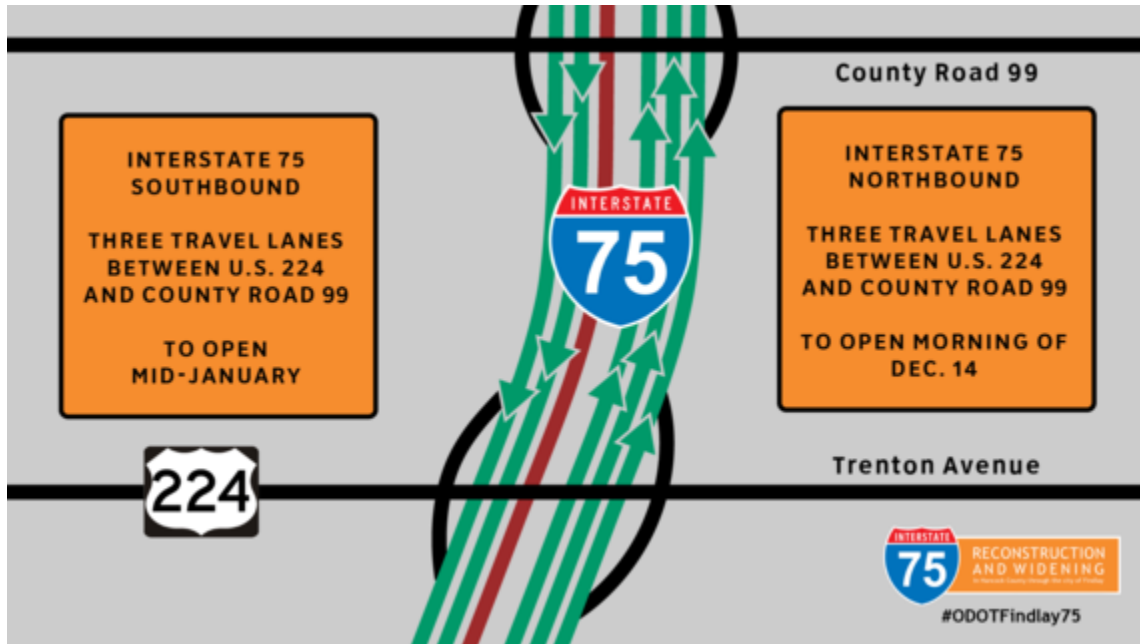

LIMA, Ohio (Dec. 13, 2018) - Interstate 75 northbound between U.S. 224 and county Road 99, Findlay, will be traveling in three lanes by tomorrow morning's commute.

All four lanes of I-75 in both directions between Sandusky Street and U.S. 68/state Route 15 are currently traveling on the southbound side. By tomorrow morning northbound traffic, just prior to the U.S. 224 interchange, will be switched back over to the new three lanes on the northbound side.

Lane closures on I-75 in the northbound direction will continue tonight as crews work to place pavement markings to denote the new traffic pattern. Traffic will be restricted between 9 p.m. tonight until approximately 7 a.m. tomorrow morning after which all three lanes will open.

Southbound traffic will continue to travel in two lanes between U.S. 224 and county Road 99. By mid-January, the third lane southbound is expected to open.

The driving surface throughout the project is an intermediate pavement. The final driving surface will not be placed until finish paving occurs in 2020, the last year of the project.

About the Hancock I-75 project:

Interstate 75 will be reconstructed and widened beginning just south of Harrison Street/County Road 144, which is just south of the U.S. Route 68/state Route 15 interchange, to the county Road 99 interchange, Findlay, Hancock County. The project will reconstruct approximately five miles of the existing four lanes of Interstate 75, construct an additional lane of travel in each direction, replace all mainline bridges on I-75, replace the Harrison Street overpass, redesign and reconstruct the interchange between U.S. 68/state Route 15 and Interstate 75, and redesign and reconstruct the interchange with U.S. 68/state Route 15 at Lima Avenue. The project also includes the construction of noise walls at particular locations. Expected completion is late fall 2020. Beaver Excavating, Canton, serves as the general contractor.
