

SR-53 at SR-163

Proposed Intersection Improvements

Major Project Components:

- Add right-turn lanes for NB SR-53 and EB SR-163
- Modify pavement markings to maximize vehicle storage and enhanced channelization
- Install overhead lane use signs to enhance driver safety
- Driveway closures at key locations to increase corridor safety
- Install new traffic signal at SR-53/SR-163
- Resurface SR-53 and SR-163 within the project limits
