News Release

ODOT Announces Upcoming 2018 Traffic Signal Project in Jackson and Nimishillen Townships, Stark County

New Traffic Signal Proposed on Shuffel Drive at the I-77 Northbound Ramps & Traffic Signal Replacement at the State Route 44 / Columbus Road intersection

The Ohio Department of Transportation (ODOT) plans install a new traffic signal at Shuffel Drive / Interstate Route (I-77) northbound off/on-ramp intersection in Jackson Township and replace the existing traffic signal at the State Route 44 / Columbus Road intersection in Nimishillen Township.

Intermittent, short duration lane and/or ramp closures will occur at each intersection during overhead installation of signal equipment. Construction and lane restriction information will be posted prior to the start of construction and access shall be maintained to all adjacent properties at all times during project construction.

The proposed project will not result in any substantial impacts to environmental resources. The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by ODOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 11, 2015, and executed by FHWA and ODOT.

This transportation improvement is scheduled for construction in the spring of 2018 and the estimated construction cost is approximately $200,000.

Questions and/or comments regarding this project may be submitted by September 4, 2017.
