You Are Invited...

Come and find out what is proposed for the SR 16/541 Interchange.

**WHAT:**
The Ohio Department of Transportation (ODOT) Public Meeting

**WHERE:**
Central Ohio Technical College
200 North Whitewoman St
Montgomery Hall Rm: MH150
Coshocton, Ohio

**WHEN:**
Thursday, September 15th, 2016 from 5 p.m. – 7 p.m.

**WHO:**
The Project Team from ODOT – District 5

The proposed project involves the reconfiguration of the State Route (SR 16/SR 541) interchange in Jackson Township, Coshocton County, Ohio. The current interchange of SR 16/SR 541 is the primary access point that serves the city of Coshocton and Roscoe Village from the SR 16 corridor. The interchange provides direct access to the central business district for the city of Coshocton, Roscoe Village and the Central Ohio Technical College (COTC) – Coshocton Area campus. The project will also involve rehabilitation of the existing bridge that carries SR 541 over the Muskingum River as well as the replacement of the existing bridge that carries SR 541 over SR 16 to raise the bridge clearance to current standards.

The meeting will be an open house-type format where attendees can view the alternatives that were studied. The alternatives are Alternative 1 (Roundabout Interchange), Alternative 2 (Tight Diamond Interchange) and a No-build alternative where the existing conditions are maintained.

Homeowners, area business owners, drivers and other interested parties are encouraged to come learn the latest project details, view the plans and provide comment on the selected interchange alternative.

Any written concerns or comment(s) regarding the project should be sent to:

Brian Tatman, Environmental Coordinator
ODOT District 5
9600 Jackstontown Rd.
Jacksontown, Ohio 43030
brian.tatman@dot.ohio.gov

*Please ensure that all comments are sent by **September 30, 2016**
