EXHIBIT A – TEMPLATE OF PUBLIC EXPLANATION TO BE POSTED (TO BE COMPLETED BY THE DOCUMENT PREPARER)

SUMMARY OF FLOODPLAIN IMPACTS

Date: 11/29/2018

Project ID: FRA-Culvert Rehab - FY20 98213

Floodplain Affected: Special Flood Hazard Area Zone AE Franklin County Ohio

Description of Project:
The project will involve structural culvert spray lining of two large diameter culverts under SR-315 (SLM - 8.42 and 9.28) and lining of a culvert at I-270 (SLM-23.63) in northern Franklin County, Ohio. The work will include some earthwork by way of placement of RCP for drainage/erosion control at I-270 and US-23.

Why must this project be located in the Floodplain?
The edge of the culverts to be lined under 315 outlet within the western edge of the aforementioned SFHA.

What alternative sites were considered, if any?
Measures to minimize impacts to waterways have been considered by way of temporary impacts only via temporary de-watering.

Were any mitigation measures utilized on this project? If so, please describe.
No

To the best of my knowledge, this project has complied with all applicable Local, State, and Federal Floodplain protection standards.
