DISTRICT 6 • 400 EAST WILLIAM STREET • DELAWARE, OHIO • 43015 • 800.372.7714

December 30, 2010

Dear Business Owner/Manager:

Construction is set to begin in January on the new Interstate 71/State Route 665 Interchange in Grove City. While you may see some orange barrels and construction equipment in the area, ODOT does not expect lane restrictions or closures until later this winter.

The two-year, \$22 million project will construct a Single Point Urban Interchange or SPUI, similar to what you may be familiar with at I-270 and Sawmill Road, and SR 161 and Sunbury Road.

To communicate more effectively, both ODOT and Grove City have websites dedicated to the project. These websites will be updated regularly and will provide information on the project including lane restrictions or closures, photos and video of construction progress.

An animated video of what the new I-71/SR 665 Interchange will look like is posted on both the ODOT and Grove City websites.

ODOT and Grove City will also provide project updates to the local media and use social media, Twitter and Facebook to release project information.

If you would like to receive email updates about the I-71/SR 665 Interchange project and sign up for the "From the Grove" e-newsletter, please provide your contact information to:

comments@grovecityohio.gov

Included are the website addresses and contact information for both ODOT and Grove City.
