The Ohio Department of Transportation (ODOT) project to widen US 33 in both directions between I-270 and SR 317/Hamilton Road began Monday, May 14. Once complete, there will be three travel lanes for both east and westbound travel on US 33. The project will also widen the bridges over Big Walnut Creek. Work will occur in the existing right-of-way and does not require additional land. All lanes will be resurfaced.

Noise walls will be constructed as part of this project (more information on back). Repairs will also be made to the SR 674 (Gender Road) bridge over US 33. This bridge was damaged after it was struck by a vehicle.

The purpose of this project is to improve travel and safety on US 33 between these two interchanges and decrease congestion. Just over 73,000 vehicles use US 33 between Hamilton Road and I-270 each day.

**MAINTAINING TRAFFIC:**
Traffic will be maintained during construction by constructing temporary pavement. Nighttime and weekend lane and ramp closures are permitted with posted detours. To receive notifications of traffic impacts, go to transportation.ohio.gov and enter your email address.

**Start:** May 2018  
**Complete:** October 2019  
**Cost:** $14 million  
**Location:** US 33 between I-270 and Hamilton Rd in southeast Franklin Co.  
**Contact:** ODOT Public Information Office at 740-833-8268
US 33 Widening on the Southeast Side

Noise Walls

Noise Wall 1
- Located along the outside shoulder of US 33 eastbound between the bridge over Big Walnut Creek and west of Hamilton Road
- Approximately 15 feet high
- Both sides of the noise wall will be ashlar tan

Noise Wall 2
- Located near the right-of-way fence along US 33 westbound just east of the Hamilton Road interchange
- Approximately 19 feet high
- Both sides of the noise wall will be ashlar tan

Schedule
- Schedule is subject to change due to weather or unplanned events
- May 14, 2018: Contractor began mobilization
- May 21, 2018: Nighttime restrictions begin 7 PM – 5 AM
- Contractor will work 5-6 days per week. Many times, the contractor will be behind barrier wall constructing the third lane
- The contractor is permitted to close lanes and ramps between the hours of 7 PM and 5 AM during the week and extended hours on the weekend
