The update is a general guide to the construction operations on **the I-70 lane addition in Clark County**. Any time frames listed within are subject to change without notice due to changing weather or field conditions. This information will be updated monthly or as needed.

April 2011

Interstate 70 – Construction has resumed on the I-70 eastbound side removing existing concrete and asphalt pavement between SR 72 at the 54 mile marker and US 40 at the 62 mile marker for the proposed lane addition. West bound traffic is currently in their original pattern, as westbound Work is scheduled for mid-summer. East bound has two lanes of travel with a middle lane as an expressway with no exits to SR41 & US40. The east bound right lane has access to SR41 & US40 exits. The east bound lanes are separated with an earth median while concrete barrier separates the east bound express lane and west bound as well as the east bound right lane and work area.

Structures - There is no structural work on project.

Miscellaneous – The contractor has a traffic crew available to check barrels, construction signs and patch potholes if required.

Crews working on I-70 eastbound lane addition

Crews working on the I-70 lane addition in Clark County

Ramps

Temporarily Closed (Currently)

No access to SR 41 or US 40 from eastbound express lane

Estimated Upcoming Milestones

Construction resumed in March
