

# PROPOSED NOISE BARRIER Comment Sheet

Noise Barrier Public Meeting • Lockland High School • 06/21/2012 • 5pm - 7pm

Your responses to this questionnaire will be used in the decision-making process to determine whether the proposed noise barriers should be built, and if so, what they should look like. *Noise Barriers 8-12* would be constructed of formed concrete panels, and would feature a simulated texture on the residential side of the barrier. Do to safety concerns and the proximity to I-75 and West Forrer Street, *Noise Barrier 7* would be constructed of fiberglass panels.

**The deadline for receipt of your comments is July 5, 2012.** If we do not receive your response by the deadline, it will be assumed that you have no opinion on the construction (or appearance) of the noise barrier proposed for your area. A low response rate from the benefitted residents/property owners in your noise barrier area will be viewed as a demonstrated lack of interest in the barrier, and could result in the cancellation of any further development of the barrier proposed for your area. After reviewing all of the exhibits and speaking with project representatives, please share your responses with us regarding the potential noise barriers along the *I-75 Thru the Valley* project.

**YOUR NAME:** \_\_\_\_\_

*(please print clearly)*

**SIGNATURE:** \_\_\_\_\_

**ADDRESS:** \_\_\_\_\_

**PHONE:** \_\_\_\_\_

*(optional)*

**E-MAIL:** \_\_\_\_\_

*(optional)*

**1. Please mark the checkbox next to ONE of the following options:**

- A noise barrier SHOULD be built for my area.
- A noise barrier SHOULD NOT be built for my area, *BUT* a vegetative screen SHOULD be installed.\*
- A noise barrier SHOULD NOT be built for my area, *AND* a vegetative screen SHOULD NOT be installed.
- No opinion on noise barrier construction.

*\*Vegetative screens serve only as visual screening and DO NOT function as noise abatement. Vegetative screening MAY NOT BE FEASIBLE in all locations.*

**2. Please mark the checkbox next to your preference for the texture/color of the residential side of the formed concrete barrier proposed for your area [Noise Barriers 8-12]:** (Please make a selection even if you indicated above that a noise barrier should NOT be built.)
