Route Numbering

bike.ohio.gov
• Off road trails preferred
• On-road factors:
  – Shoulder and lane widths
  – Pavement conditions
  – Speed limits
  – Car and truck traffic counts

ODOT will perform a final safety check on proposed route corrections
Route Designation Process and Timeline

Kick-Off Meeting
Assign leader for each MPO, RTPO, and ODOT District. Leader is responsible for coordinating route review and jurisdictional resolutions of support within TIP region. Identify local jurisdictions, park districts, and other stakeholders who should be involved. Leave knowing who will do what.

Contact Affected Jurisdictions
- Inform locale of designation effort.
- Request support of effort and review of route.

Finalize Routes
- Final routes, agreed upon by jurisdictions sent to ODOT.
- Routes populated in TIMS and published on website

Review Draft Routes
- Provide stakeholders a means and reasonable time to comment on routes.
- Field review routes for bike travel suitability. Bikers and advocates may be a great

Submit AASHTO Application
- For US routes, ODOT CO will submit route designation application to AASHTO.
- Application must contain turn-by-turn directions and

Acquire Resolutions
- ODOT, MPO, or RTPO leader to gather resolutions from all affected jurisdictions along finalized route
Fosters economic development
