Updated RMR Process

- ODOT OES updated the Environmental Site Assessment (ESA) process.
  - Smaller projects = smaller budgets
  - Do more of the research in-house

- Now the Regulated Materials Review (RMR).
  - First draft in May 2017
  - Latest update released in August 2018
Updated RMR Process – Web Map

- ORPS web mapping application was built to assist the new RMR process.
  - Built in ArcGIS Online

This Regulated Materials Review (RMR) Web Mapping Application is intended to assist in ODOT-OES’s RMR process. Datasets in this application have been compiled by agencies outside of ODOT; therefore ODOT disclaims any responsibility for wrong or misleading entries. Keep in mind that many of these datasets are shown as points, even though the sites they refer to may extend beyond that specific point. Below is a list of the “Step 3 ENVIRONMENTAL DATABASE SEARCH” search layers in the RMR Guidance and the layer names in the RMR Analysis Viewer that they correspond to.
