

ODOT Certification for Compaction Testing Required for: Soil and Aggregate Inspector

Testing will be held in groups on an as needed basis at ODOT's Central Office or District Offices. The test will cover ODOT requirements for items related to compaction testing and inspection from the following references:

- ODOT's 2013 Construction and Materials Specification Manual
- ODOT's Supplement 1015, AASHTO T-99 and T-272
- ODOT forms CA-EW-5 and 6

The test is open book and reference material will be provided.

The hands-on Practical portion is no longer a part of this test.
To certify a gauge, please contact Floyd Carpenter at 614-387-0714.

To register for the ODOT Compaction Test, e-mail the following information:
InspectorPrequalification@dot.state.oh.us

1. Name of Class you are interested in
2. Person(s) to be trained
3. Company name and address
4. Contact person's name, email address, and phone number(s)

Currently no testing dates have been scheduled. When the number of requests suggests a class is required, a testing date and location will be scheduled. You will be contacted at the contact information you provided when you registered as described above.
