

## **Hydrated Limestone Slurry**

### **Qualified Product List Specification - Requirements**

ODOT Construction and Materials Specifications 659.03

### **Requirements for inclusion on the Qualified Product List**

#### **Submit to the Office of Materials Management, Chemical Section:**

1. Evidence that the material is registered or licensed by the State of Ohio, Department of Agriculture. Submitted yearly by January 1.
2. A material sample in the original container of 2.5 gallons or less with the container label intact. Include a statement that the materials provided ODOT will be the same material as the provided sample.
3. Product Data Sheet.
4. MSDS.
5. Agree to notify ODOT when any material changes are made.
6. Agree to provide ODOT with quarterly samples from production.

#### **Acceptance by the Department**

The Department will evaluate the manufacturer's submittal and the sample against the manufacturer's requirements. Items 1 thru 4 are required before listing. Accepted products will be listed on the Department's qualified product list web page and will be loaded into the Department's Construction Management System for acceptance in the field through the QPL screen under the manufacturer's producer/supplier code.

The Department will test quality assurance samples submitted by the plant and check samples obtained from the field. Products that do not meet the Department's specifications will be rejected and the product will be removed from the QPL.

#### **Field Documentation requirements**

Products on the QPL will be accepted if they can be identified by the field to a supplier/manufacturer listed on the Department's Qualified Products List
