

Rigid Galvanized Steel Conduit Fittings

Qualified Product List Specification - Requirements

ODOT Construction and Materials Specifications 725.04

Requirements for inclusion on the Qualified Product List

Submit to the Office of Materials Management the following information:

1. Manufacturer's letter certifying the metal conduit supplied to the project will meet or exceed Departmental specifications
2. Accompanying the letter will be a typical certification for the rigid metal conduit showing the minimum coating thickness for Galvanizing or other coating.
3. A notarized statement stating the steel is domestic and meets the Department's requirements for domestic steel
4. Agreement to immediately notify the Department on any changes in production, materials, dimensions, before shipment.
5. Provide the Department a contact name, number and e-mail address
6. Provide re-certification documentation by January 1 of each year

Acceptance by the Department

The Office of Materials Management will review a manufacturer's submittal for compliance with specification requirements and may perform tests on the pre-qualification samples

Accepted products will be listed on the Department's qualified product list web page and will be loaded into the Department's Construction Management System for acceptance in the field through the QPL screen.

Field Documentation requirements

Products on the QPL will be accepted if they can be identified by the field to a supplier/manufacturer listed on the Department's Qualified Products List.
