

## **Barrier Reflector**

### **Qualified Product List      Specification - Requirements**

ODOT Construction and Materials Specification 726.01

### **Requirements for inclusion on the Qualified Product List**

#### **Submit to the Office of Roadway Engineering, Pavement Marking Engineer the following:**

Certified test data and documentation showing compliance with the requirements listed in 726.01. Indicate reflector type.

#### **Submit to the Office of Materials Management the following information:**

1. A sample of the material.
2. Manufacturer's letter certifying the barrier reflector supplied to the project will meet or exceed Departmental specifications
3. Provide certified test data and documentation
4. Agreement to immediately notify the Department on any changes in production or materials before shipment.
5. Provide the Department a contact name, number and e-mail address
6. Provide re-certification documentation by January 1 of each year

#### **Acceptance by the Department**

The Office of Roadway Engineering will review a manufacturer's submittal for compliance with specification requirements. The manufacturer will be notified in writing of the resulting Approval or Non-Approval. The Office of Roadway Engineering will notify the Office of Materials Management of approved products. Approved products will be listed on the Department's qualified product list web page and will be loaded into the Department's Construction Management System for acceptance in the field through the QPL screen.

#### **Field Documentation requirements**

Products on the QPL will be accepted if they can be identified by the field to a supplier/manufacturer listed on the Department's Qualified Products List.
