

Wet Reflective Optics

Qualified Product List Specification - Requirements

ODOT Construction and Materials Specifications SS905 and S1103

Requirements for inclusion on the Qualified Product List

Submit to the Office of Roadway Engineering, Pavement Marking Engineer the following:

Certified test data and documentation as required under Supplement 1103 and Supplemental Specification 905

Submit to the Office of Materials Management the following information:

1. A sample of the material.
2. Manufacturer's letter certifying the wet reflective optics supplied to the project will meet or exceed Departmental specifications
3. Provide certified test data and documentation
4. Agreement to immediately notify the Department on any changes in production or materials before shipment.
5. Provide the Department a contact name, number and e-mail address
6. Provide re-certification documentation by January 1 of each year

Acceptance by the Department

The Pavement Striping Committee will review a manufacturer's submittal for compliance with specification requirements and may perform tests on the pre-qualification samples. The manufacturer will be notified in writing of the resulting Approval or Non-Approval. Accepted products will be listed on the Department's qualified product list web page and will be loaded into the Department's Construction Management System for acceptance in the field through the QPL screen.

Field Documentation requirements

Products on the QPL will be accepted if they can be identified by the field to a supplier/manufacturer listed on the Department's Qualified Products List.
