

## **Precast Trench Drain Qualified Product List**

### **Specification - Requirements**

ODOT Construction and Materials Supplement Specification 939

### **Requirements for Inclusion on the Qualified Product List**

#### **Submit to the Office of Materials Management the following information:**

1. Provide a manufacturer's letter certifying the Precast Trench Drain supplied to the project will meet or exceed Departmental specification SS939 and include:
2. Typical test data showing compliance with material requirements of Supplemental Specification 939
3. A notarized document that states any steel or iron used meets the Domestic origin requirements of the Department's specifications
4. Agreement to immediately notify the Department on any changes in production, materials, dimensions, before shipment.
5. Provide the Department a contact name, number and e-mail address.
6. Provide re-certification documentation by January 1 of each year.

### **Acceptance to the Department**

The Office of Materials Management will review a manufacturer's submittal for compliance with specification requirements and will notify the manufacturer as to the acceptance of the product submittal.

Accepted products will be listed on the Department's Qualified Product List (QPL) web page and will be loaded into the Department's Construction Management System for acceptance in the field through the QPL screen.

Any quality assurance field samples found to not meet specifications will mean removal of the supplier/manufacturer from the Qualified Products Lists.

### **Field Documentation Requirements**

Products on the QPL will be accepted if they can be identified in the field to a supplier/manufacturer listed on the Department's Qualified Products List.
