

Ohio Department of Transportation Prebid Questions

Project No. 100342

Sale Date - 6/3/2010

Question Submitted: 5/24/2010

Question Number: 1

Please list span configuration for each of the 36 listed in the plan documents, ie: simple span or complex. Also, please change the note under "Work assignment process" to a completion date of 60 days from the time the contractor receives the material from the supplier. Signal equipment now has a lead time of 60 days after release. This leaves no time for installation.

This question will be address by an addendum.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
