The special provisions titled WATERWAY PERMITS CONDITIONS- 3. states temporary work is not permitted on this project, and also 12. - states Temporary impacts to streams are not authorized for this project. How can we construct this project without constructing a cofferdam? Please advise

**The document states that temporary fill is not permitted (Special Provisions Waterway Permits Conditions line 3) in the stream at any time, but in accordance with the Special Provisions Waterway Permits Conditions line 12, "Temporary fill activities can include, but are not limited to, causeways, work pads, coffer dams, sheet piling, and construction equipment".**
