

Ohio Department of Transportation - Prebid Questions

Project No. 130028

Sale Date - 1/17/2013

ADA-90250 - CR-C.R.1F AND VARIOUS

Question Submitted: 1/10/2013 10:53:07 AM

This question pertains to Odot 130028. After a field inspection of all the County Roads to be marked with Long Line thermoplastic, it was obvious that all the roads are too narrow for the average type thermoplastic truck to navigate. Center Line will be very difficult, if not completely impossible to apply. Would appreciate your thoughts on this issue.

Based on a conversation with the Adams County Engineer, David Hook claims the roadways listed in the plan are 18'-20' wide. Ample width for the placement of the thermoplastic centerline.
