

Ohio Department of Transportation Prebid Questions

Project No. 070354

Sale Date - 7/18/2007

Question Submitted: 7/13/2007

Question Number: 1

On page 3 of the plans under the Traffic Maintenance note it states that no ramps or roadways may be closed to traffic. We have some concerns about the safety and our ability to pave a number of these ramps under traffic due to the length and geometry of them. Previous experiences we have had paving these ramps has necessitated them to be closed. The last time it was ordered by the State Patrol that they be closed after we had started due to safety concerns on I-75. Also no LEO's are set up on this job. They have typically been required in the past when setting up a zone on I-75. Is the cost of these to be folded in to the MOT?

The ramps and roadways will not be closed to traffic during the project. The need for an LEO is not deemed necessary at this time.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
