

Ohio Department of Transportation Prebid Questions

Project No. 100382

Sale Date - 6/3/2010

Question Submitted: 5/13/2010

Question Number: 1

Can alternate traffic control application TA-17 be used for two lane road rumble strips? We are looking for some type of mobile lane closure.

No, the alternate traffic control application TA-17 cannot be used for this project. Use only the flagger details and notes provided in the plans.

Question Submitted: 5/17/2010

Question Number: 2

Does the Department of Transportation consider traffic control plan modifications post bid, when the contractor and the state identify safety problems with the existing plan?

The contractor is to meet the requirements as mentioned in the plans and contract documents.

Question Submitted: 5/17/2010

Question Number: 3

The general notes specify that grinding material shall become the property of the contractor and be disposed of at his expense outside the limits of right of way. Will the rumble strip grinding contractor be permitted to sweep the millings from the rumble strips to just beyond the edge of pavement or will you require the millings to be collected with pickup type road brooms and then hauled to offsite disposal locations?

The contractor will not be permitted to sweep the grindings as you mention. The requirements of the general note on plan sheet 3 are to be met.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
