Question Submitted: 7/7/2016 8:18:38 AM

What type of pavement marking material(s) is the existing pavement marking? 646.04 D. Removal of Existing Markings states "When placing epoxy markings in the same place as existing pavement markings, remove at least 95 percent of the existing pavement markings." However, if the existing pavement marking is 646 epoxy, is removal required?

The existing markings should be Epoxy. 95% of the epoxy markings must be removed.
