

Ohio Department of Transportation Prebid Questions

Project No. 050246

Sale Date - 4/20/2005

Question Submitted: 4/15/2005

Question Number: 1

Item #4 Wearing course removal. Is this item an excavation item for the driveways. What is the thickness of the existing asphalt pavement for the drives?

See plan sheet 14/43 for wear course removal locations and applications. The intent of the item is to remove the wearing surface to provide a smooth transition to meet the existing profile the roadway or drive. The thickness of the drive asphalt is irrelevant.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
