

Ohio Department of Transportation Prebid Questions

Project No. 060415

Sale Date - 9/20/2006

Question Submitted: 9/13/2006

Question Number: 1

One lane of 452 pavement will be installed adjacent to an existing concrete shoulder which is to remain. Two questions concerning this:

- (1) Will we be required to drill tie bars into the existing shoulder?
- (2) You realize that the smoothness of the new lane will be affected by the smoothness of the existing lane?

Question Submitted: 9/8/2006

Question Number: 2

Ref# 12 - Seeding & Mulching, app - 163,319 sy

Please double check the quantity (or the units). If the Linear Grading quantity is correct then the above quantity/unit probably isn't.

Thanks

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
