

# Ohio Department of Transportation Prebid Questions

Project No. 066019

Sale Date - 7/26/2006

---

Question Submitted: 7/20/2006

Question Number: 1

This project gives you three different drilled shaft Designs you can bid. The most economical design can not be completed by the completion date of 11/15/06 due to material availability. The other two more expensive designs can be completed by 11/15/06. Does the department want us to bid the most economical design or a design that can be completed by 11/15/06.

**We had different designs added to the project, to give the contractor optional bids, based on availability of material. We will not change the completion date and we expect the project to bid with the design which can be completed by the established completion time.**

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
