

Ohio Department of Transportation Prebid Questions

Project No. 050584

Sale Date - 12/2/2005

Question Submitted: 11/30/2004

Question Number: 1

On sheet 6/48 under design stresses, Concrete Class S is designated for Superstructure diaphragms, but on sheet 38/48 note 1 states that "concrete for the pier and intermediate diaphragms shall be Class QSC 1." When reviewing sheet 9/48, there are no designated quantities for item 511 Class S 4500 psi concrete or Class QSC 1 for either intermediate or pier diaphragms. What is required for the diaphragms and the quantities that will be used?

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
