

Ohio Department of Transportation Prebid Questions

Project No. 090461

Sale Date - 9/30/2009

Question Submitted: 9/18/2009

Question Number: 1

This project involves work in a very tight median with concrete and asphalt trucks to get in and out of the median. It appears however that all work could be performed with a shoulder closure. What will be the time restrictions for shoulder work of this nature in the median of I-75. Lane closure times do not necessarily apply to shoulder closures.

Shoulder closures can be done anytime. However, if any part of the lane is taken, you must apply the lane closure policy.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
