

# Ohio Department of Transportation - Prebid Questions

Project No. 120063

Sale Date - 2/9/2012

AUG-91308 - VA-RUMBLE STRIPES-FY2012

*Question Submitted:* 1/19/2012 10:07:45 AM

Based on your previous experience with rumble strips being cut on edge lines and/or center lines will you require NO EDGE LINES, DO NOT PASS, and PASS WITH CARE signs as described under CMS 614.04?

Same basic question reworded:

Does the installation of center line/edge line rumble strips change the appearance of OMUTCD standard edge line and standard center line markings enough to require signing as described under CMS 614.04?

**No signs are required.**

*Question Submitted:* 1/19/2012 9:06:05 AM

The methods of disposal for grinding material as depicted on sheet 6 of 9 depicts a slightly different description for clean up of center line grindings as compared to edge line grindings. Will the contractor be permitted to sweep the millings from the rumble strips to just beyond the edge of pavement or will you require the millings to be collected with pick up type brooms and then hauled to off site disposal locations?

**The Department will issue an addendum to revise the "Grinding Material" note for Edge Line Rumble Stripes to match that of the Center Line Rumble Stripes. The Contractor will be permitted to sweep the millings from the rumble strips to just beyond the edge of the pavement.**
