

# Ohio Department of Transportation - Prebid Questions

Project No. 167024

Sale Date - 11/3/2016

BEL-101980 - CR 30-05.65

Question Submitted: 10/19/2016 2:44:26 PM

Is there a geotechnical exploration available for this project?

**No we do not have any soil borings here. However, the District is confident that bedrock will be reached within 15' (as stated in the plans) due to investigations at sites close by and the layout of the site. Even if bedrock is not reached within 25', the 25' shaft (above bedrock) will be sufficient to retain this very shallow landslide.**
