**TUS-250-(5.21-5.44)**

**Current ADT 1990**

**% Trucks (24 Hour B & C) 31.7%**

*Question Submitted:* 1/26/2012 3:11:43 PM

Item #7 calls for a 12.5mm Type A Asphalt designed to resurface the ramps at I77 and 250. The material required to met the crush count to produce this material is not locally available. Limestone is not allowed per Plan Note. Will the Department consider specifying a 12.5mm Type B so locally available material may be used ?

**The District prefers to use the Type A (446) mix for the Asphalt Concrete Surface Course. No changes will be made to the plan.**
