Project No. 150510

Sale Date - 9/24/2015

BEL-99042 - SR 149-23.85

Question Submitted: 8/27/2015 8:41:59 AM

Page 25 has an "As Per Plan" note for the 2070E controller that states the controller unit "shall be compliant with 2070E Siemens Manufacturer and build per OTO approved list" What is meant by compliant? Since the controller is to be supplied without software is it intended that this would read to be compliant with Siemens software? What is the OTO approved list? Is this intended to be the ODOT TAP list? Specifically are controllers without software on ODOT's TAP list acceptable for this item acceptable?

**The intent of the note is for the contractor to supply a controller manufactured by Siemens from the OTO approved list (also known as the Traffic Authorized Products (TAP) list which can be found under traffic operations). Software is not to be provided as stated in the note.**
