## Prebid Questions

Project No. 090360

Sale Date - 7/15/2009

Question Submitted: 7/15/2009

Question Number: 1

There is no stone base material specified under any of the concrete on this project. Is this an error? Or is the intent to place directly on earth? Also, the only place that notes RCP conduit is in the detail drawings of the catch basin. The bid item is simply type B conduit. Is RCP conduit required anywhere on this project?

Question Submitted: 7/2/2009

Question Number: 2

Will ODOT please consider extending the completion date for this project.

Question Submitted: 7/2/2009

Question Number: 3

When reviewing the Proposal for this project it was noted that the letting date is 7/15/09 and the Date Set for Completion is 8/31/09. This only leaves 6 weeks between letting and completion. By the time this project is actually awarded and contract is signed only a few weeks would be left for the work. Could this possibly be a typographical error?

---

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
