## Prebid Questions

Project No. 070187

Sale Date - 4/18/2007

Question Submitted: 3/26/2007

Question Number: 1

Ref #3 442 Asphalt Surface specifies 448 in lieu of 446. Per the new supplemental 800 for 448, it would still require density for this project. Because 446 was not specified, is it ODOT's intention to eliminate density or will density be required per the new 448 spec listed in supplemental 800?

**Bid as is, as density will be required as per SS 800 for 448 asphalt concrete.**

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
