Question Number: 2

Reference 0026 is for Seeding and Mulching, Class 3B. The typical sections on drawings 5 & 6 label the seeded areas as Seeding and Mulching, Class 1. Drawing 7 lists just Seeding and Mulching with the bid quantity. Is Class 3B to be used for the entire project?

The reference item is correct: use 3B for the entire project. The text in the typical section legend is not correct. See page 14 for the individual totals for seeding from the cross sections. The item description for seeding on this sheet shows Class 3B.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
