Prebid Questions

Project No. 050256

Sale Date - 4/20/2005

Question Submitted: 3/21/2005

Question Number: 1

On the title sheet it states the terminii on SR 743 is 6.46

In the plans on sheets 3 and 10 it looks like work continues

to station 6.76. If this is correct the center line quantity

would fit, however, the edge line seems to have been doubled.

Please clarify.

The termini on the title sheet is incorrect. The edge line quantity has been revised in addendum 1.

Question Submitted: 4/12/2005

Question Number: 2

Ref 16 Quantity seems to have been doubled. Please Clarify.

Question Submitted: 4/18/2005

Question Number: 3

The proposal calls out asphalt pavement to be light duty design. This is very unusual for a state highway. Are you sure you want light design instead of medium.

The light duty is correct. Light duty design follows the pavement design manual for traffic counts with B&C ratio less than 50. SR 743 and 756 have a B&C ratio less than 50 in a 24 hour period.

Question Submitted: 4/6/2005

Question Number: 4

Bid item 16 Edge line 36.04 miles

On sheet 10 is the summary for this work. The quantity was mistakenly doubled in the proposal. It should only be 18.02 miles.

Thanks Darren

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
