Question Number: 4

In reference to bid items 103-106. The proposal calls out for mechanical joints and fittings. Is it the intent of ODOT to make the contractor install mechanical joints or can push on joints with mechanical fittings be used? The proposal also calls for "cutting-in-sleeves" but the plans show tees and wyes. Which should we bid?

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
