It appears that that concrete quantity for reference no. 9 is half of what it should be.

Thank you for pointing out this inconsistency in the bidding documents. The inconsistency is relatively small compared to the entire project , herefore we will not delay the sale of the project in order to issue an addendum.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
